

Cloud Modernization and Migration Services

Anywhere to Azure Migration

Digital Transformation Services help enterprises embark on a journey to be highly scalable, agile and attain a truly global IT footprint by building a robust and scalable IT estate across Infrastructure, Data & Applications to power business growth.

Ready to start your Digital Transformation Journey? It can be challenging if there is no reliable partner nearby.

Every customer does have thoughts around the Data Center Modernization with certain doubts in mind:

Lack of scalability, High costs, Lack of flexibility, Security concerns, Complexity, Downtime, Integrations Lack of automation, Management & troubleshooting, Skilled resources

NIVENTIQ is a global leader in Digital Transformation & Cyber Security

We help organizations transform and operate efficiently and securely in an increasingly digital economy

Business | Government | Societies | Employees

Transformation Phases

Noventiq's digitalization journey has 5 main stages, supported by Azure Cloud Adoption Framework

01

Assessment and Discovery

Infra and App Analysis and Discovery, App to Infra Mapping, App Dependency Assessment, Workload Categorization, Calculating TCO

02

Planning and Design

Design Landing zone on Azure, Plan security at all layers, Prepare Migration Plans and Deployment Plans, DR & HA strategy

03

Cloud Migration

Build Landing Zone on Azure, Configure Infrastructure and Application, Identify cutover window, Initiate test failover & validate migration status, Execution of Migration Waves

04

Testing and Cutover

Preparing test plan and test cases, Performing functional testing, Coordinating business testing, Performing performance testing, Performing UAT and patch testing

05

Hand Holding

Handover to the respective teams, Train them on the respective technology to bridge the gap
