

# Medxnote Robotic Clinical Assistant

## Increasing Patient Throughput

ABOUT MEDXNOTE ROBOTIC CLINICAL ASSISTANT:

## Office 365

Built for Microsoft Teams, Medxnote is a Robotic Clinical Assistant (RCA) platform that connects doctors and nurses to any clinical data at the point of care. Our clinical chatbots optimise workflow without disrupting existing IT systems and drive patient throughput and efficiencies in hospitals and healthcare settings.

### WHAT WE OFFER

Medxnote Robotic Clinical Assistants leverage HL7 FHIR interoperability to open up your clinical data and empower clinicians to drive patient throughput.

A screenshot of a web form titled "Select subscription type:". It contains four radio button options: "Pathology" (selected), "Radiology", "All tests", and "All procedures". A "Select" button is at the bottom.

Real-time Radiology and Laboratory results notifications in Microsoft Teams. View results in app as a PDF. The ability to view results in real time in Microsoft Teams is proven to speed up patient discharge.

Internal referrals or consults can be delivered in real time to Microsoft Teams. The consult can be viewed in-app and acknowledged. This workflow is 15X faster and removes significant delays to treatment.

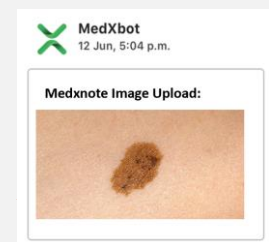

Image Upload bot allows clinicians to capture any medical image in Microsoft Teams and upload the image securely to the patient's medical record: EMR, EDMS or PACS. This ensures a complete medical record and compliance with information governance.

### WHAT OUR CUSTOMERS ARE SAYING

*“Using Teams has enabled us to communicate clearly as a clinical team, with the Medxnote bot giving us the information we need from our EPR to manage our patients more effectively”*

Dr. Mike Celinski, CCIO, University Hospital Southampton NHS FT

# Microsoft Office 365

Office 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Office 365 lets anyone create and share anywhere on any device.

## KEY USE CASES

### BUSINESS-CLASS EMAIL

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### CLOUD STORAGE

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### MEET ONLINE

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

### COLLABORATE, CHAT PRIVATELY

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

## WHY OFFICE 365

### SAVE YOUR COMPANY MONEY

Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

### SCALE YOUR BUSINESS QUICKLY AND FLEXIBLY

Office 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Office 365 provides many plans to fit the right capability needs and price points for each user in your organization.

### TECHNICAL SUPPORT

Your Office 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

### FINANCIALLY BACKED SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service level agreement.

### SIMPLIFIED IT MANAGEMENT

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.
