

Connected Schools Solution

PwC Connected Schools lets you seamlessly connect your entire school community, improving people's experience and processes along the way.

Connected Schools is a school management system, flexible and scalable to fit your schools needs, developed by PwC Australia, with Microsoft and on the Microsoft platform. Six modules to connect your entire school community and drive improved student outcomes.

■ School Leaders and Principals

Benchmark student, class and school performance from any device, anywhere. Easily access insights to help you to optimise your school's learning outcomes, monitor health and wellbeing and oversee school administration with powerful Power Bi Dashboards.

■ Administrators

Streamlined all your school processes in one place. From communication with teacher and parents, overseeing all your finance and reporting needs, to empower staff and support decision making, with a customised HR management. Simplified single sign-on improves access and data security.

■ Teachers

Free time to focus on teaching by reducing admin burden. Have valuable, current insights about your students at your fingertips. Enable students to better understand and track their own engagement and progress supporting rich conversations about student learning.

■ Parents

One platform to stay connected with teachers and see your child's progress now and over time. Make enquiries, check assignments, report absences, contact the uniform shop, make bookings for event and excursions all in one platform, with the Parent Portal.

The solution

Introducing

Connected Schools Solution

PwC and Microsoft have partnered to develop Connected Schools Solution. A school management system, flexible and scalable to your needs, with an end-to-end solution built entirely on the Microsoft Platform.

One solutions to manage student administration, admissions and enrolment, provide a 360 view to ensure student success, and improve the communications experience with and families and the wider community. Connected Schools Solution empowers your schools to create connected experiences that are personalised and relevant.

KEY BENEFITS

- 1 The most inclusive, secure, and compliant platform to make faster, more informed decisions by putting data-driven insights into your people's hands.
- 2 Harness the power of the cloud for innovation and agility. Work from anywhere and any device and have one single source of truth and single sign on.
- 3 Connect your school community to the latest communication, collaboration and productivity tools, learning resources, management systems and personal learning and development opportunities.
- 4 Streamline and centralise student and management information, providing real-time analytics to inform everything from student progress to school planning.

Connected Schools Solution

PwC Connected Schools lets you seamlessly connect your entire school community, improving people's experience and processes along the way.
