Business Drivers

Your organisation is just starting its journey to the cloud

2020-21 showed the benefits cloud collaboration can bring

Cloud can bring savings over traditional, on-premise datacentres

Cloud compute is greener than on-premises datacentres

You need support establishing a low-risk cloud roadmap

You want to strengthen your organisation's security posture

Five Day CAF Foundation

We baseline and build cloud concepts – giving you confidence in your cloud migration planning and delivery

1 – Strategy

Where we set business context for cloud, how we'll work together, and set the measures for project success

2 – Resources

Bringing your existing tooling, structuring assets and resources, risk, and accelerating deployment

3 – Security

Best-practice and security by design; network encryption, isolation, and routing; back-up and DR

4 - Identity

Identity as your control plane; zero trust; policy and access control to protect your business

5 - Review

We present back engagement outputs, set knowledge transfer, and a clear plan for next steps
