

# TEAMS TRAINING

## Teams Training Overview

Maximising value from your O365 investment relies on ensuring your users fully understand the features and benefits of all components of the applications.

Our Microsoft Teams training improves user productivity and maximises ROI through providing your users with a clear, practical and in-depth understanding of the key components and capabilities of the Microsoft Teams platform.

Our training is delivered remotely using Microsoft Teams and can be geared to cater for either:

01 Foundation

02 Intermediate

03 Advanced

Become an Expert

We immediately felt the impact of Changing Social's Teams training and support. I can honestly say that we would not be where we are without the support from the team at Changing Social, they have open our eyes from out dated ways of working and we are set up perfectly for the future.

- Josh Clarke, Director at Clifton Coffee
