focus solutions

Epic on Azure

Bringing together the leading EHR and the power of cloud hosting

Our proven approach handles more than just your EHR. We help you properly position all your critical systems in a comprehensive & well-orchestrated environment, fueling your healthcare organization's key strategies:

- Patient Experience
- Care Team Coordination
- Medical Imaging
- Data Management
- Data Analytics & Insights

Not until now, have you been able to combine the clinical expertise of the industry's leading EHR with the world-class infrastructure of Microsoft Azure.

We understand the complexity and have solutions to help you at all stages – from initial decision to full implementation.

Experience the Cloud Difference

World-Class Infrastructure

An Epic instance that's ultra stable, scalable, and secure.

Reimagined Opportunities

Reliable data flexibility & connectivity between all your systems – means you can help your team focus on the future by fostering new capabilities & infrastructure innovations.

Prep for Future Growth

Infrastructure that supports and fuels your growth rather than hinders it.

Safely Transition with a Trusted Expert by Your Side

Leading the Way...

- Trailblazing Epic on Azure install in 2021
- We've planned *AND* executed
- Confidently lean on a team who's done it

Full-Stack Capabilities...

- Success is more than simply hosting your EHR
- Full system knowledge & coordination is essential
- Proven transition solutions

Healthcare Centric...

- We are more than just technology
- Fully dedicated to healthcare for 12+ years
- Industry expertise

Leverage 'Epic on Azure' Your Way

No matter where your healthcare organization is on its journey to the cloud, you can lean on Focus Solutions to safely and securely guide your transition. Our portfolio of solutions meets you where you're at *and* provides a strategic path forward.

Full Stack

Project Sandbox

Disaster Recovery

Secure your Epic with a parallel back-up hosted on Azure

- Tangible cost savings of 60% savings vs. traditional DR solutions
- Free your organization from its secondary data center dependency
- Fully managed DR service option available

PERFECT FOR YOU IF:

- Your hosting contracts are up for renewal
- You're seeking cost savings & a stronger BCP strategy

Host your non-production environments on Azure

- Free-up computing resources in your current hosting environment
- Turn on and turn off as needed (cost savings)
- Avoid unnecessary hardware & deployment cost for temp projects

PERFECT FOR YOU IF:

- You have temporary project needs for Epic environments
- You want to learn and demonstrate proactive prep for the future of infrastructure

Bring your full Epic experience into an Azure-based cloud solution

- Epic and all core systems in a well-orchestrated cloud environment
- Expert guidance from a team that's been there
- Unlock massive cost savings & innovation opportunities

PERFECT FOR YOU IF:

- Your organization is experiencing exponential growth
- You fully understand the benefits of the cloud
