## VERITAS NETBACKUP PROTECTS YOUR DATA AT ANY SCALE ON AZURE

Protect your data from ransomware or unexpected downtime with NetBackup from Veritas, deployed on Microsoft Azure. NetBackup is a unified solution to back up and secure your data seamlessly, regardless of how complex your enterprise data environment is. NetBackup scales to even the greatest workloads, so no matter how large your company grows, NetBackup will adjust to handle your needs.

NetBackup and Azure ensure your data is easy to migrate and recover, so you can keep your business running and meet your compliance needs.

INFINITELY SCALABLE

No matter how your workload grows, NetBackup elastically scales to fit your business needs.

RAPID RECOVERY

Restore your data with near-zero downtime in the event of an unplanned outage, so your business doesn't miss a beat.

FLEXIBILITY

NetBackup works with Azure or other cloud storage services, and handles workloads across hybrid and multicloud environments.

EASY MANAGEMENT

Manage your entire data ecosystem from one console.
