

# AUTOMATE ANY TASK AT ANY TIME WITH RPA (SOFTURA & MICROSOFT)

(RPA) "Robotic Process Automation" allows employees to focus on important tasks by training RPA/Bot's to perform mundane/manual and also complex daily tasks to improve company productivity.

## AUTOMATION DESIGNED AND DEPLOYED FOR ENTERPRISE SCALE BY SOFTURA :

### PUT INTELLIGENT WORKFLOWS TO WORK

- Automate tasks with built-in AI capabilities, giving you more time to focus on strategic, high-value opportunities.
- Automate processes across legacy software and modern cloud-based applications and services
- Leverage low- or no-code approaches to make automation accessible, and reusable to everyone in the organization
- Empower teams to easily bring AI models into everyday workflows
- Integrate Digital Process Automation (DPA), Robotic Process Automation (RPA), and Artificial Intelligence (AI) into a scalable, end-to-end automation solution

### BOOST PRODUCTIVITY

- Build time-saving workflows into everything from individual tasks to large-scale systems with seamless integration using hundreds of prebuilt connectors.

### AUTOMATE QUICKLY AND MORE SECURELY

- Reduce response time, provide employees quicker access to data, answers in real time, automatic ticket generation

### SOFTURA ACCELERATORS

- A pre-built automation pipeline to get automation work streams up and running quickly
- Established enterprise automation infrastructure
- Microsoft Teams Bot interface
- Bot lifecycle Management

## HOW TO GET STARTED

- Discuss your needs and where you see automation playing a roll to reduce time and cost
- Meet with additional stakeholders (if needed) to prioritize the automation tasks and roadmap
- Tailored cloud cost model with capabilities
- Roadmap on Top-3 automation tasks
- Cost and ROI for full deployment of Top-3 tasks
- Start delivery within 2-weeks of project confirmation
