

# BertIA Microsoft Azure Services

Microsoft  
Solutions Partner

Data & AI  
Azure

## With Microsoft Azure Services, we make your business more profitable and competitive

**Microsoft Azure** provides businesses of all sizes with the freedom, agility and scalability to grow. While companies intend to start taking advantage of these benefits, it can be difficult starting on a large-scale cloud project due to the cost commitment and uncertainty of the outcome.

This is where a **BertIA Azure Services** can offer significant value to your organization; We guarantee that the strategic planning regarding the deployment process of Microsoft Azure services is carried out in a satisfactory way, obtaining better ratios at business level and an objective ROI.

# Services

- Data Analytics Platform.
- Machine Learning and AI Algorithms.
- Business continuity of systems and applications.
- Optimization of systems and applications security.
- Increased quality, consistency and accuracy of the data handled by a company, resulting in better decision making by its management team.
- Global management of the transformation of the Datacenter to a cloud or hybrid model based on Azure.
- Secure desktop and application delivery from any device and any location.
- Application modernization.
- End-to-end solution administration and governance.
- Administrative, consumption and security alert management.
- Technology adoption and training plan.

# Why choose the BertIA Azure Services?

## EXPERIENCE

At BertIA we have worked on many projects with Azure Services in order to achieve success in each of them.

## SCALABILITY

Azure is able to easily adapt to the ever-changing circumstances of your business.

## FLEXIBILITY

Flexibility, scalability and performance.

## SECURITY

You can considerably reduce hacking risks with Azure Active Directory and its IAM capabilities.

## COST-EFFICENCY

Microsoft's pay-as-you-go model enables businesses to only spend for what they use.

## INTEGRATION

Most businesses depend on other tools like Microsoft 365 or Office 365.
