Azure AI Envision Workshop: Bring your AI ambitions to life with Coeo

About Coeo and the Azure AI Envision workshop:

Are you curious about what AI can do for your business? Do you want to learn about how to start an AI project?

At Coeo, we understand that the world of AI is new to many and not easy to navigate alone. We are a specialist Microsoft Data & AI partner ready to take you on this journey of education and adoption.

What we offer

2-Hr Free* AI envision workshop with an experienced Coeo Analytics & AI consultant.

During this workshop, you will gain a high-level overview of the core Microsoft Azure AI services and products available: Azure Cognitive Services, Azure AI Applied Services, Azure Machine Learning and Azure Databricks.

Our team will then collaborate with key data stakeholders in your organisation to assess your current data infrastructure and understand your ambitions for AI adoption.

Using one key business scenario we will explore and uncover which AI tools can assist you in meeting your business goals faster, with an expert on hand to provide guidance and next steps.

Kickstart your AI journey with Coeo and Microsoft Azure AI services.

*Subject to approval

Engage your team in the conversation

- > Learn how to apply Microsoft Azure AI services to your business challenges
- > Explore the key AI drivers for your organisation and how to utilise them
- > Embark on your AI journey with an experienced Coeo consultant

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organisation meet its business challenges. With Azure, your business or organisation has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
