

# E-shop for the employees.

This application provides an easy way for employees to place their order for company's products when a campaign is active.

The employees can see the products for this campaign, their initial and end price and apply filters to products. When a campaign is active each employee can place only one order, but this order can be deleted or modified as long as the campaign is active. An order can be placed if the employee has

not exceeded the minimum and maximum limit of the amount of the order and has agreed with terms and conditions. When the campaign is over, each employee receives and email with the order confirmation.

Admins manage campaigns, orders, products and employees.

The screenshot displays the E-shop interface for employees. At the top right, the campaign limits are shown: [ 20.00€ - 800.00€ ], with an available balance of 282.21 € and a total amount of 517.79 €. A shopping cart icon with a '3' indicates three items in the cart. Below the header, there are three filter dropdowns: Division, Brand, and Category, each with a '--Select filter--' option. The main area displays a grid of products, each with an image, name, and price details. Products are marked with a green checkmark to indicate they are available for purchase.

Product Name	Initial Price (€)	Final Price (€)	Status
