Innovate and deliver with Knowit expertise and Microsoft Azure

ABOUT KNOWIT:

Knowit is a consultancy firm that creates unique customer values by offering digital and cross-functional solutions across three business areas: Experience, Insight, and Solutions. Knowit is your long-term innovation and development partner.

Why choose Knowit?

Knowit is a Microsoft Gold partner with cloud expertise from a wide range of customer engagements. Our consultants remain up-to-date on the latest Azure and cloud technologies, thanks to ongoing training and experience.

WHAT WE OFFER

Our team of highly skilled cloud strategy and technology experts makes us a key strategic partner for your board and corporate management teams, as well as your IT department.

We provide your business with workshops plus analysis and creation of a complete cloud strategy to drive development toward competitive advantages—such as flexibility, efficiency, and innovation.

Knowit offers access to experts and cross-functional teams, including Agile coaches, design and UX architects, and development and DevOps resources.

Together with our clients, we've built solutions that leverage cloud services such as Microsoft Azure Kubernetes Service, Azure Cosmos DB, Azure Databricks, Azure Logic Apps, Azure Service Bus, Azure DevOps, and Azure Functions, among others.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
