ChatBot **SMART RH**

artificial intelligence at the service of Human Capital

Multiple services in a single ChatBot

- 🔗 Optimize processes
- 🔗 Automate less value-added tasks.
- 🔗 Enhance the internal customer experience.

You are drowning in requests for work certificates, salaries and requests for leave!

Take advantage of our **SMART RH Chatbot** to boost your internal image.

Your company is known for its innovative services to external customers and yet there is a gap with the service to internal collaborators who waste time in administrative procrastination.

- Annual leaves
- Sick leave
- Work certificate
- Expense
- Teleworking Information
- Right to training
- Annual evaluation
- Procedures
- ...

We will help you raise your internal customer service to recognized standards to guarantee maximum commitment and motivation.

ChatBot SMART RH

- 🤖 **SMART RH** is a sophisticated computer program capable of engaging in natural language with one or more collaborators. It can handle HR applications the most common ones.
- 🤖 Artificial intelligence built into **SMART RH** works in 'Machine' mode Learning, that is, it is programmed at the outset and then deduces from it Choice.
- 🤖 **SMART RH** has no time or availability constraints, it responds instantly, every day 24/7, to the HR questions and requests of Employees.
- 🤖 **SMART RH** operates according to the business process of the company, it is designed to be 100% as it can incorporate human validation steps.
- 🤖 In the event of a complex issue, **SMART RH** redirects the employee to the person responsible or the department concerned.

Advantages

- 
- 📺 No time or space constraint, **SMART RH** is available 24/7 with possibility of customized setting.
 - 📺 The automation of HR tasks - not requiring intellectual skills - will allow employees to free up time to concentrate on high added value tasks.
 - 📺 **SMART RH** is a very efficient assistant in data collection.
 - 📺 Thanks to the data collected, **SMART RH** can be an excellent way to measure the degree of employee satisfaction, their good integration into the company, this data is also a means of identifying dysfunctions and to provide quick and appropriate solutions.
 - 📺 **SMART RH** will give the company an innovative image.
