DIGITAL VELOCITY & MICROSOFT PARTNERSHIP HIGHLIGHTS

Highlights

- 800+ Engineers, 120+ Microsoft Dedicated
- 360+ Microsoft Azure and Security Certifications
- Advanced Specializations:
 - Windows & SQL Server Migration
 - Modernization of Web Applications
 - Kubernetes
- Azure Expert MSP
- Azure Cognitive Services Powered Intelligent CX
- Microsoft AMMP and Solutions Assessment Funding Subsidies

Expertise

- Core Azure Infrastructure Deployment and Management
- On-Premise to Cloud Migration
- Hybrid Cloud
- Infrastructure Automation and IaC (Infrastructure-as-Code)
- Cloud Native Application Development
- Modernization of Legacy Applications
- Data Warehousing and Analytics
- Database Modernization & Migration
- Cloud Security & Governance
- Data Protection & Privacy
- AI and ML Solutions

AZURE OPEN AI & COGNITIVE SERVICES

2 DAY BOOTCAMP

Join us for a two-day interactive session where you'll learn the ins and outs of Azure Cognitive Services, Azure OpenAI Service, and Azure OpenAI Studio - key ingredients for success when it comes to leveraging AI for your business. You'll also be exposed to CDW's solution accelerators and workshops as well as gain hands-on experience creating prompts related to various scenarios.

Our 2 Day interactive crash course is the perfect way for everyone to dive into this influential technology and gain an experience. This interactive two-day workshop is designed for individuals of all technical backgrounds, providing hands-on exercises to help familiarize participants with these cutting-edge technologies. Plus, gain insight into CDW's solution accelerators and workshops used for deploying use cases quickly and efficiently.

WHAT IS IT?

Looking for a way to leverage one of the most influential technologies of the 21st century to grow your business? Join us for a quick 2-day interactive session and learn about Azure Cognitive Services and Azure OpenAI Studio. Designed for everyone to get involved and gain a bit of experience with Azures next generation products. In this workshop, you'll learn how to create and refine prompts for various scenarios using hands-on exercises. You'll also discover how to leverage Azure OpenAI Service to access and analyze your company data

WHO IS IT FOR?

This Crash Course is ideal for persons and organizations who are seeking to increase their knowledge and understanding of the capabilities and practical uses for Azure OpenAI and Cognitive Services. Exposure and familiarity provides the foundation for your business practical AI journey.

2-DAY OUTLINE

DAY 1

- **Getting Started**
 - Introduction to the Bootcamp & Instructors.
 - Intro to Azure OpenAI & Cognitive Services
 - Azure OpenAI Studio / DALLE-2
- **Prompt Engineering**
 - Prompt Engineering Concepts
 - Prompt Engineering Exercises using Studio

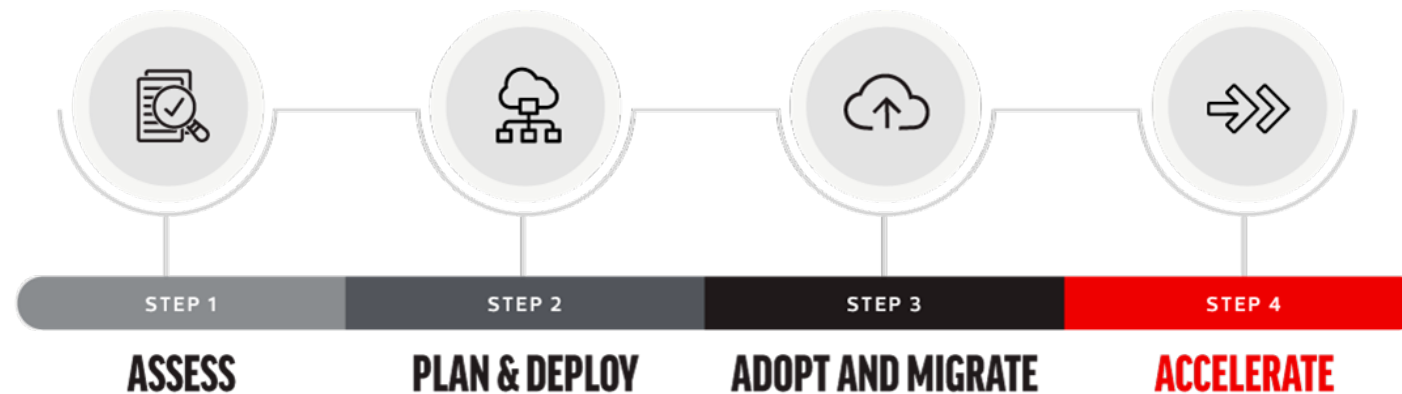

DAY 2

- **Recap**
- **Using Azure OpenAI Service to work with company data**
 - Environment deployment
 - Interactive walkthrough of deployed solutions
- **Advanced Concepts**
 - Next Level Prompt Engineering
 - Making DALLE-2 work for you
- **Conclusion**
 - Q 'n A
 - CDW Solutions Accelerators & Workshops

NEXT STEPS:

MOVING THROUGH THE AZURE CLOUD ADOPTION JOURNEY

CDW provides you with the foundation, roadmap, and the expert guidance to best leverage the benefits of modern cloud-native infrastructure methodologies.

ACCELERATE CLOUD-NATIVE ADOPTION

Digital Velocity can provide a wide variety of follow-on services including Landing Zones, Infrastructure Automation, Application Development & Modernization, Cloud Governance, Data and Analytics Modernization, Cloud Security Deployments, AI & ML Engagements, and Modern Managed Services.

Our off-the-shelf and custom technology solutions are inherently cloud-native and code-native, maximizing the impact and ROI of your investment in the cloud now and into the future. Leverage our years of expertise and hundreds of engineers to help your company develop something category defining with modern cloud-enabled technology.

THANK YOU
