

OneView Digital Store Platform

Offer Title: OneView Digital Store Platform

High Level: Transform retail experiences with headless unified commerce powered by a single digital cart engine

Offer Detail: OneView empowers retailers to digitally transform critical operations with our cloud-native, api-first unified commerce platform powered by a channel-agnostic digital cart engine that manages cart processing, calculation, and tLog generation for every point of engagement.

OneView enables true unified commerce by combining agile development of commerce services with full retailer control of the UX/UI through our headless platform architecture. OneView has 'productized' build, test, and learn into a quick-start, low-risk retail framework that equips retailers to quickly iterate their unique vision for building brand value and loyalty.
