Alchemy's Citrix on Azure Offering

The Alchemy proof of concept will integrate the six foundational layers of desktop virtualization:

- **Access Layer:** Identity secured by Azure Active Directory
- **Resource Layer:** Windows 10 or 11 single-session or multi-session optimized images
- **Control Layer:** Citrix cloud integration to manage, orchestrate, and scale the environment
- **Operations Layer:** Integration with Azure Defender for Cloud, Log Analytics, and Insights
- **Persona Layer:** Modern profile management with FSLogix
- **Security Layer:** Integration and governance with blueprints, policies, and cloud tools to effectively secure the environment

The methodology employed provides comprehensive improvement, ease of adoption, and accelerated time to value—ensuring your investments are realized and immediately impact the subscribers' experience.
