“With the help of Experts Inside and their tooling we were able to fully understand what we have today and where we need to go. Now our way is free to have a hassle free migration to Microsoft 365.

– Chemical Industry, Project Manager

WHAT WE OFFER

Many Companies have SharePoint Server in play when it comes to Microsoft Collaboration. Most of these server farms have aged and grown over time. To migrate them into a modern Microsoft 365 environment is a challenge and you must understand your environment first.

We help you in not only understand your environment, but we also help you to understand the different methods of migration, depending on your target.

At the End you will have a clear view on how to migrate, what to migrate and what to leave behind and save a lot of money by only touching what is worth to be migrated. Enter a new way of working!

Why a SharePoint Assessment?

Save your company money

Knowing exactly what you have today in your SharePoint environment is not only key for a good migration but also saves you a lot of money. Why? Because with our algorithms you can identify, what content can be left behind, and what content can be super easily migrated to Microsoft Teams with a simple content Migration. This will shorten your Project time and reduce cost by a two-figure percentage.

Gain the Insights you need to be successful

A SharePoint migration to the Microsoft Cloud is a very complex project. Mostly SharePoint Farms have a lot of customizations and sometimes very deep and complex structures. Not knowing what you have, will lead to a never-ending project. This will create frustration and attacks the modern way of working as frustration kills motivation. So do your homework first, and you will have success in your Project.

Reduce duration of your Project

Having an Assessment in place that tells you what Data you can leave behind because it is not relevant anymore not only saves you money but, even more valuable, time. You can cut your Project duration up to 80% by our SharePoint Assessment.

Get a Roadmap

What you have is a very good starting point. But where to go? This is another big topic that we address. Migrating to SharePoint Online can be very different. Will it be classic to classic? Or classic to modern? Or even a classic to Teams Migration? How can you know? By our SharePoint Assessment and our algorithms, you can exactly find out which of the SharePoint sites will fit to the modern collaboration solution Microsoft Teams. Migrating to Teams is much simpler technically, faster in speed and way better to collaborate in future for the Site Owners.

So Go for it, get your Assessment NOW!

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today.
