Azure Governance

Governance guidelines that matter

Date or Version number

EXPERTS
INSIDE

Maintaining control over Azure is not easy, especially if no guidelines exists

The first step is always difficult. Experts Inside supports and develops customized Azure Governance concepts for customers, adapted according to Microsoft Best Practices.

CHALLENGES

An ungoverned Azure environment is quickly identified. We often face a lack of experience and knowledge at the customer to properly control and setup an Azure environment.

IDEAL SOLUTION

A fully comprehensive concept for Azure Governance, which is adapted to the needs of the customer and can be practiced and extended by the employees.

Desired OUTCOMES

With the implementation of governance, there is a complete overview in Azure that has never been seen before. All with cost savings, control and security in mind.

Azure Governance

Built-in and custom policies as well as best practices to keep your Azure environment under control.

1

OVERVIEW

The Azure Governance team has complete overview about what's happening in their Azure environment.

2

COST CONTROL

Costs are controlled and it is possible to react to price changes and deviations in advance.

3

AUDIT

In the interests of security, all activities within the environment can be viewed at any time.

Experts Inside & Azure Governance

A fully comprehensive workshop starting from the introduction of Azure Governance to the implementation of the resulting concept.

AZURE GOVERNANCE INTRODUCTION

An introduction to the Azure Governance topic including evaluation of current issues and solutions.

AZURE GOVERNANCE CONCEPT

Governance methods are covered in the form of a concept, including examples and best practices, so that even new employees can quickly gain an overview.

AZURE GOVERNANCE IMPLEMENTATION

Using the latest Azure features, the defined governance is implemented, if desired also by means of Infrastructure as Code.

Customer from the medical sector

The implementation of Azure Governance provides customers with complete visibility and control of their environment. This baseline allows the customer to quickly and efficiently deploy solutions and workloads in Azure without sacrificing additional cost and security.

AZURE GOVERNANCE TEAM

There is an Azure Governance Team in place to proactively take care of the environment and its maintenance.

GOVERNANCE IMPLEMENTATION

Simple and documented implementation of Azure Governance. The desire for a fully automated governance implementation is there.

DEVOPS INTEGRATION

Azure Governance team members are evolving in the areas of DevOps due to Experts Inside implementation guidelines.
