

NTT DATA – Azure Arc Overview

December 2022

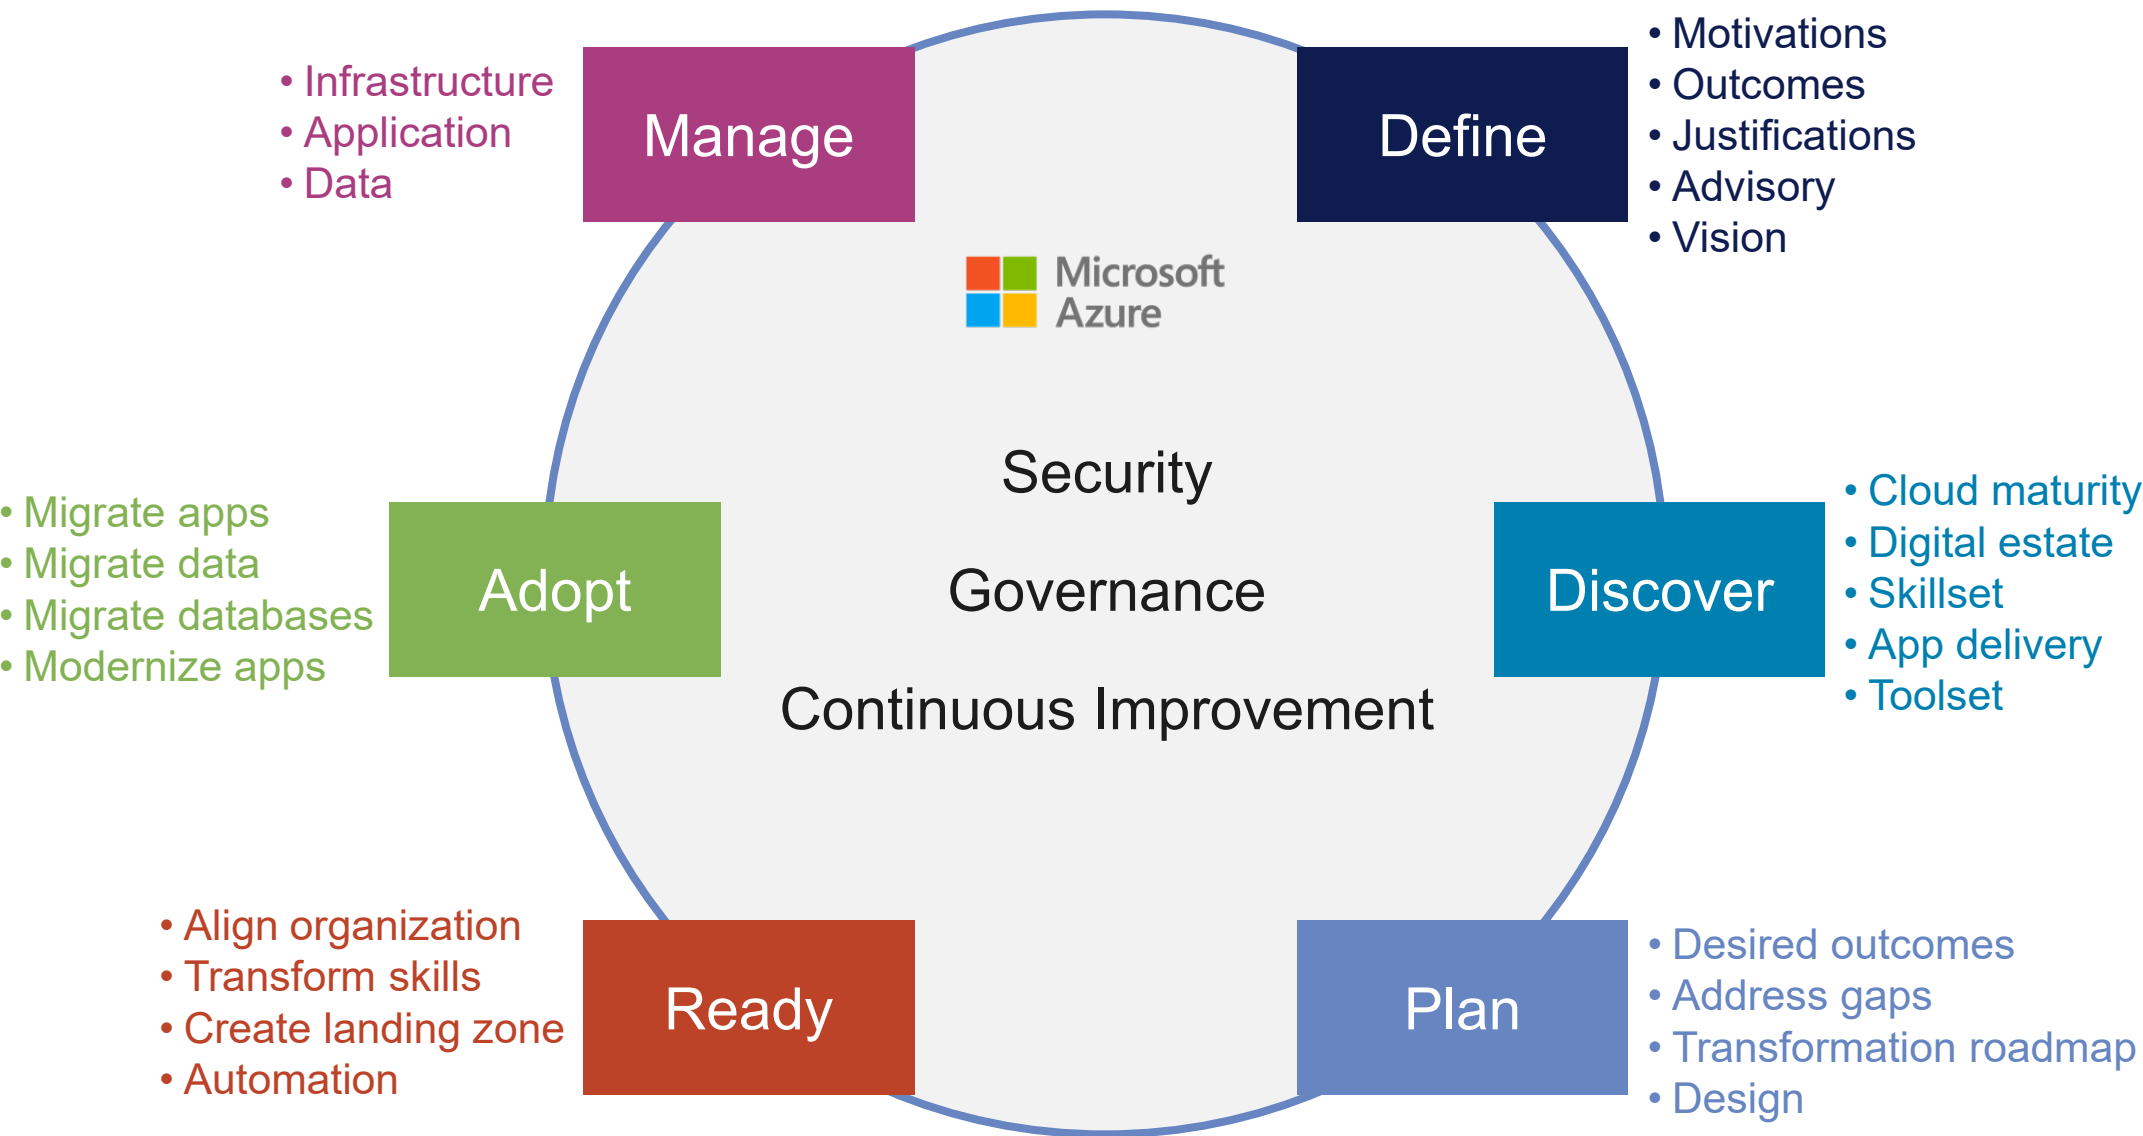

Business and IT Solutions With Deep Vertical & Domain Expertise

NTT DATA offers a complete range of customizable services

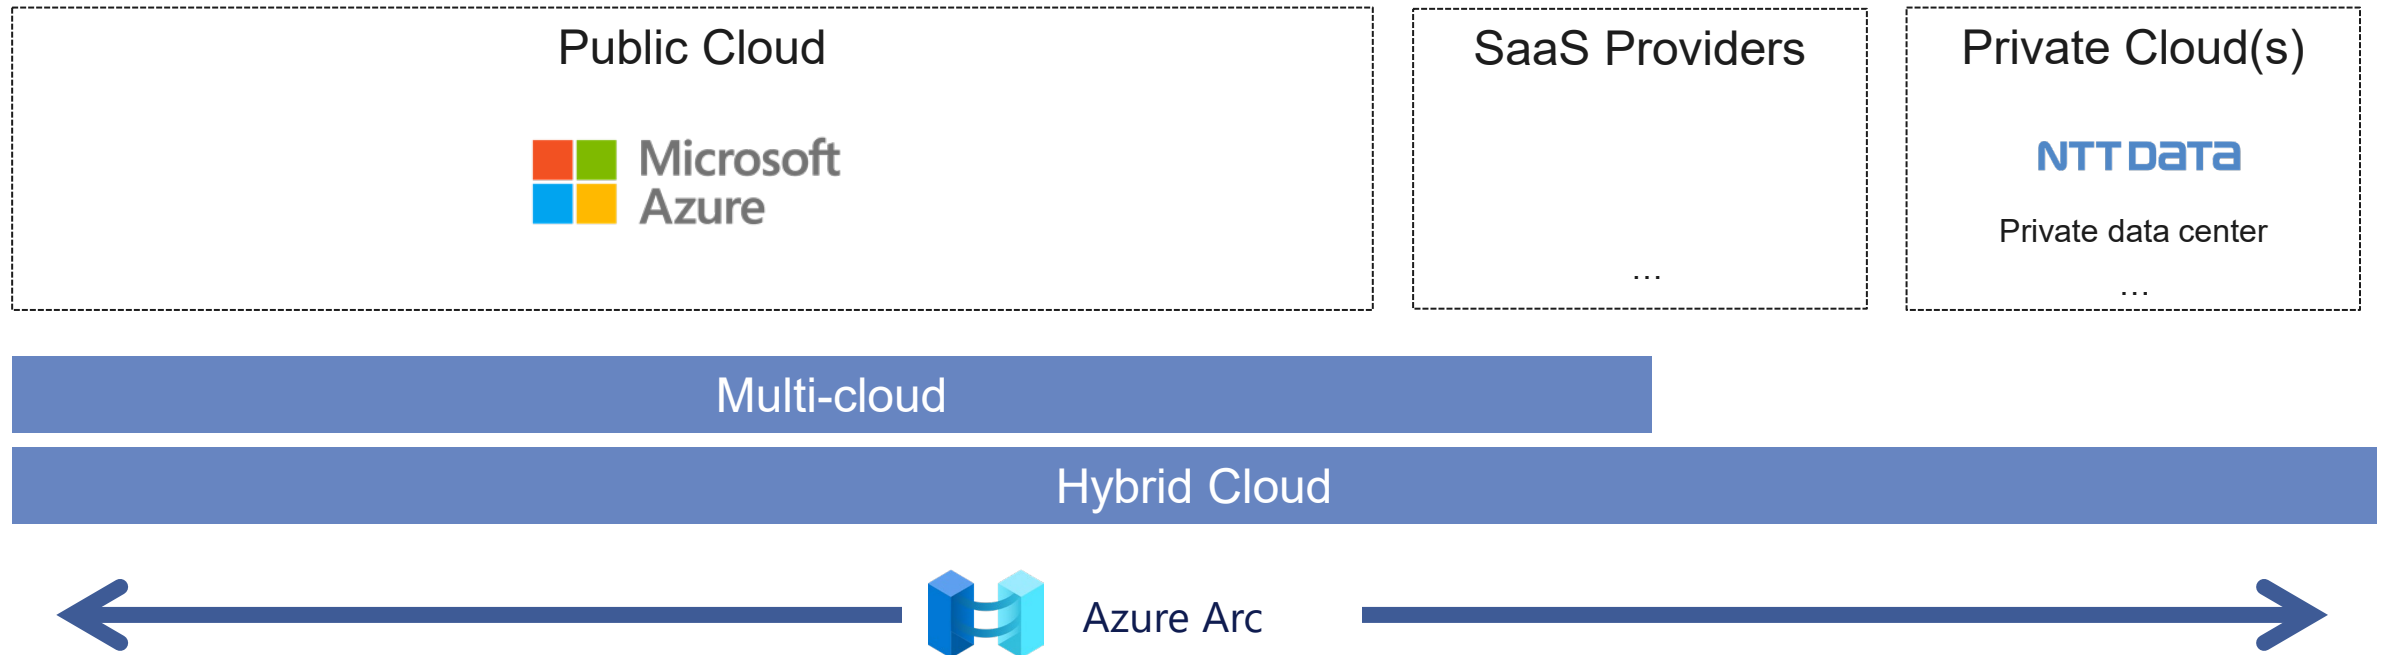

Our unified cloud adoption framework provides the strongest foundation

Differentiating Multi-Cloud and Hybrid Cloud

Hybrid cloud is a composition of a public cloud and a private environment, such as a private cloud or on-premises resources, that remain distinct entities but are bound together, offering the benefits of multiple deployment models.

Microsoft Azure Arc Overview

Customer aspirations

● Accelerate application development

● Secure and govern distributed digital estate

● Deliver products as a service

● Transform data into new products

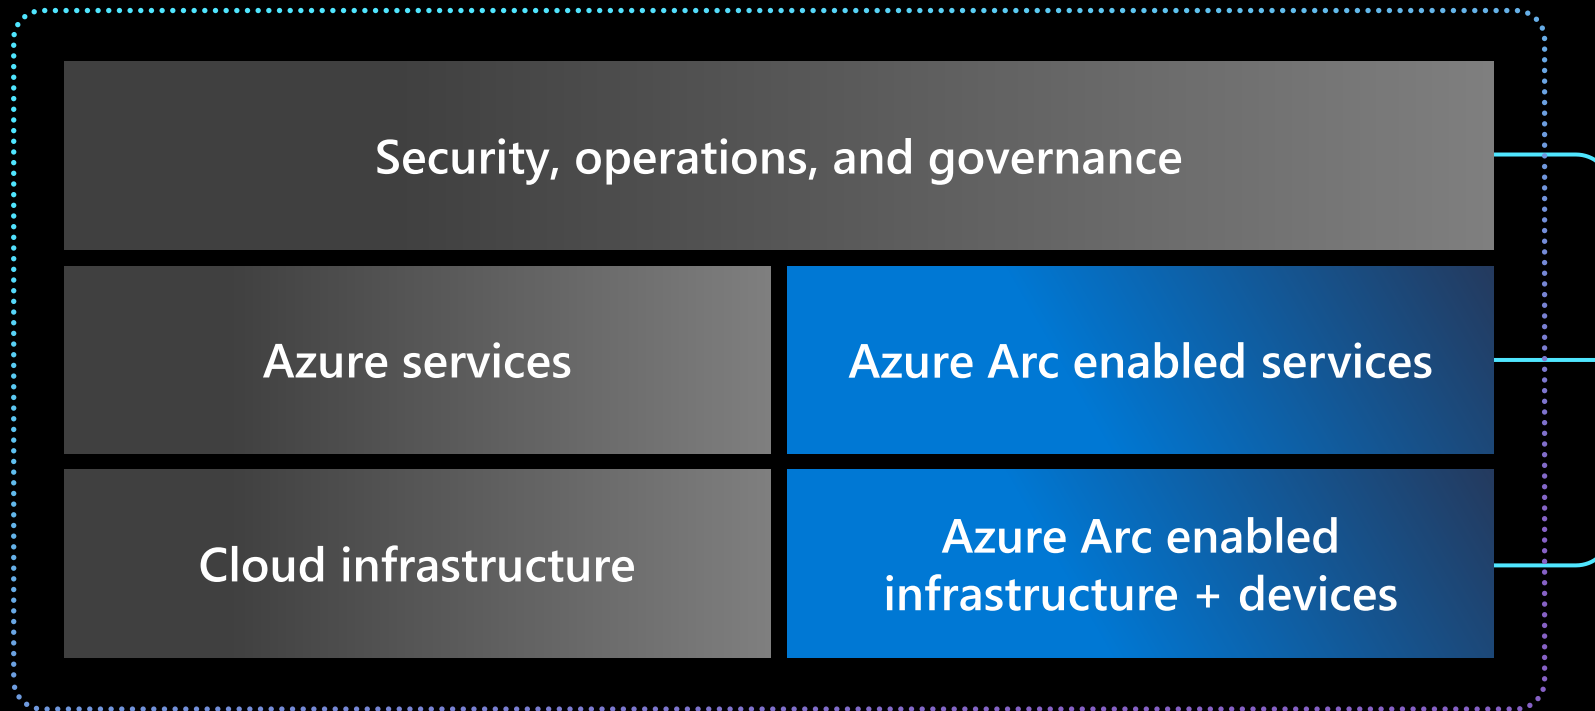

● Meet changing regulations

Next Steps

Getting Started

Let NTT DATA work with your teams to understand how to adopt Azure Arc to extend the Azure platform across datacenters, edge, and multicloud environments

Services:

- Consulting and Design
- Implementation
- Management

Outcomes:

- Develop cloud native, operate anywhere
- Harness data insights from cloud to edge
- Secure and govern across environments
- Flexibly meet regulatory and connectivity needs

NTT DATA: a trusted Microsoft partner

Gold

Microsoft Partner Azure Expert MSP

NTT DATA is a Microsoft Azure Expert MSP, which is the highest level for Azure managed services and requires frequent and rigorous audits to validate our capabilities. This status with Microsoft provides NTT DATA with exclusive access to Microsoft resources and engineering experts and increased access to Microsoft sales teams.

Advanced Specializations

- SAP on Microsoft Azure
- Windows Server and SQL Server Migration to Microsoft Azure
- Identity and Access Management

- 10,000+ Microsoft Certifications
- 4300+ specialized Microsoft consultants
- 14,000+ Microsoft developers and architects

Competencies

15 Gold and 2 Silver, including:

- Cloud Platform
- Cloud Productivity
- Small and Midmarket Cloud Solutions
- DevOps
- Datacenter
- Windows and Devices
- Security
- Application Development
- Application Integration
- Data Platform
- Data Analytics
- Project and Portfolio Management

- 12,000+ agile practitioners
- 1,000+ DevOps (CI/CD) engineers
- 1,000 consultants supporting cloud brokerage and orchestration

Partner Programs

- Cloud Solution Provider – Reseller
- Azure Marketplace for Apps and Consulting
