Organizational Challenges

- The Covid-19 pandemic advanced the digital transformation process between 6 to 10 years.
- Modern infrastructure and applications are elastic.
- Complex and dynamic systems, increases review and analysis time.
- Need to simplify monitoring and management.
- Accelerated migration to Cloud solutions.
- Those who do not address and solve the challenge will gradually disappear or see their business greatly diminished.

VZOR Business Monitor

VZOR Business Monitor allows you to capture, save, analyze and present reports with personalized dashboards according to the needs of each of the managements to keep constantly measured the main services, business processes and their indicators.
