## EASY PRODUCT LABELING FOR SEAMLESS TRACEABILITY

- Platform agnostic integration
- ISV partner to Zebra
- No disturbance with the current manufacturing process
- Guaranteed 4 months deployment
- ROI Vs CAPEX investment 10% (approx)

## INTEROPERABLE ASSET ID

- Digital twin identity turning equipment and assets interactive
- Stakeholder specific interface
- Permissioned data access for users.
- Enterprise Grade data privacy
- Immutable & secure blockchain ledger

## INVENTORY RECEIPTS ON BLOCKCHAIN

- In-app verified inventory receipts
- Automated operational processes
- Seamless compliance management tool.
- Easy stock audit capabilities

# Reduce Workload OPEX

- Secure inventory with certified receipts multi-signed on Blockchain.

- Automate billing with verified inventory receipts

- Optimize inventory management with interoperable traceability solution.

- unique computer vision technology that can detect errors and has anti-fraud capabilities to Boost staff capabilities.
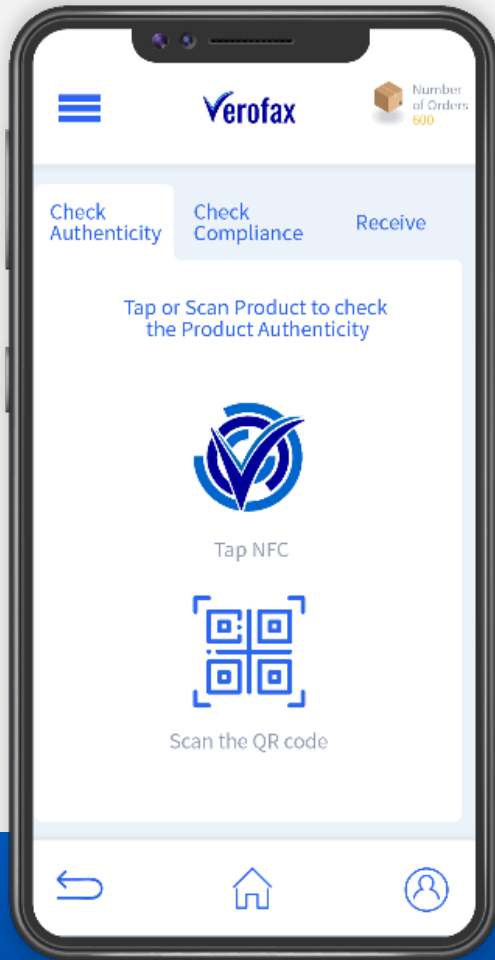

# Procurement Validation

- Secure procurement & prevent counterfeit with smart serialization & traceability

- Mitigate compliance and security risks with validated supplies and quality audits

- Manage strategic inventory with interoperability
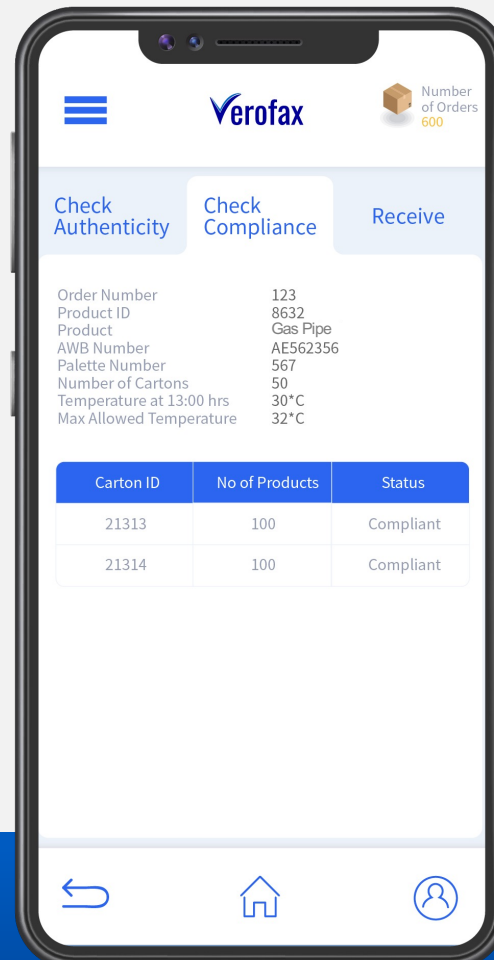

- Stakeholder specific interface to boost adoption

# Seamless Inventory Management Solution

# Reduce Downtime With Predictive Maintenance

- Increase staff capabilities with precision training

- Increase productivity in field with preventive/ predictive/ systematic/ corrective maintenance

- Automate processes with smart inventory management

- Ease access to maintenance records and repair logs in-app
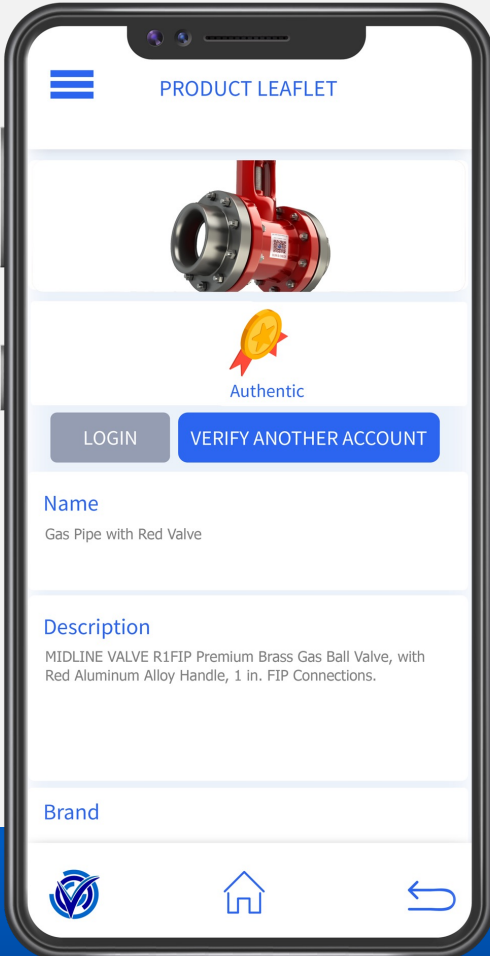

# Intuitive Staff Interaction

## Increase efficiency

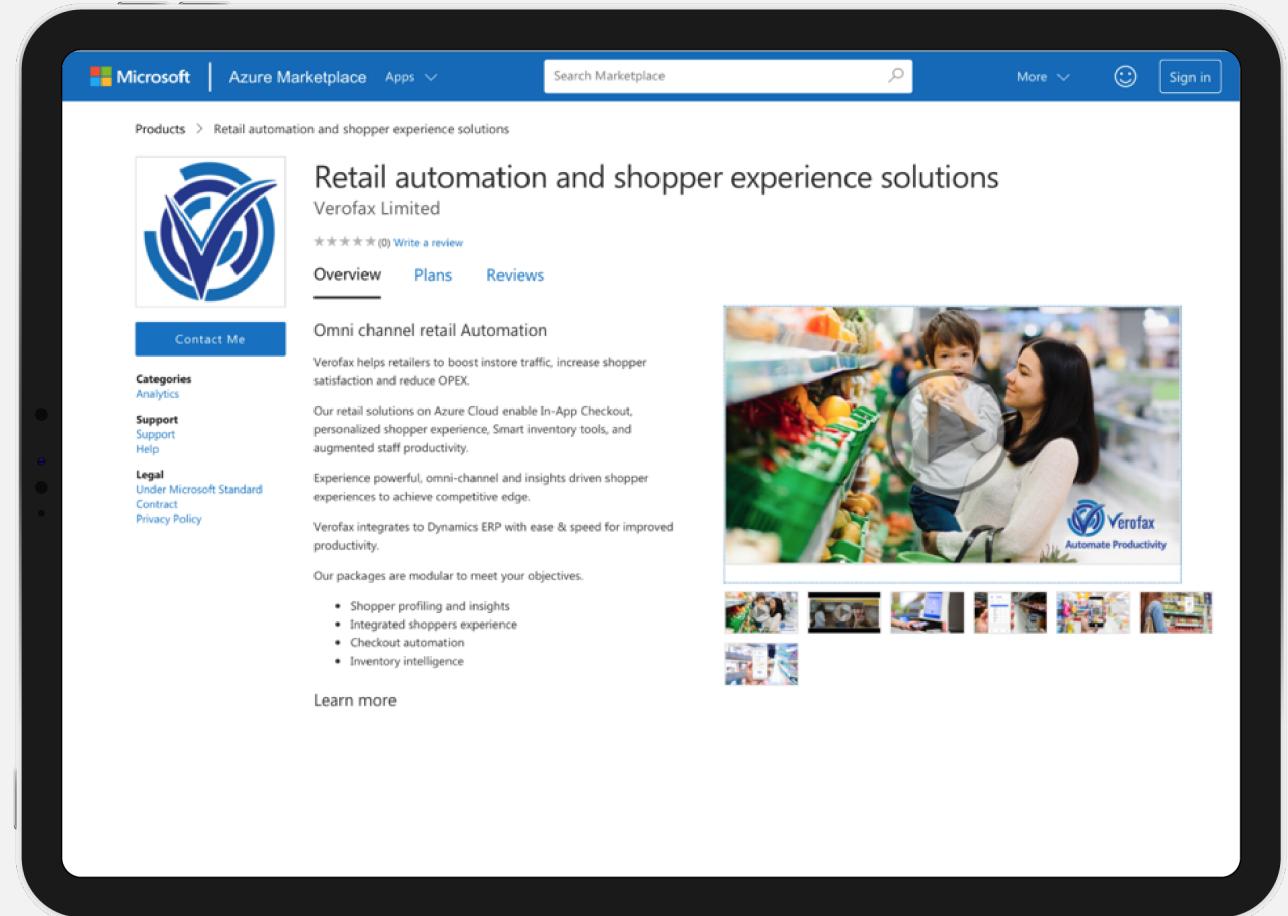

## More Trust

## Staff Engagement

## User Manual

# Validated & available on leading tech marketplaces

- Validated and co-selling on Microsoft Azure, AWS & Ant group marketplaces

- KPMG partnership for Traceability

- GDPR compliant with Hyperledger blockchain

- Certified zero-knowledge data management protocol with channel privacy

# Competitive Advantage

- Low cost of adoption

- Decreased time to market

- Increased partner engagement

- Seamless services integration

- Proprietary & patented solution
