

We offer the best possible experience for you and your customers through our application development services

We develop mission-critical applications using Microsoft's .NET Framework and other products. As a Microsoft partner, we develop portals, mobile applications, BI tools, chatbots, data analytics, Dynamics CRM, and utilize Azure cloud services for scale and redundancy. Based on our experience in the field of system integration, we can assist all industry verticals with .NET development.

Our Expertise in .NET

1. Azure Development Services

On Azure Cloud, we help you create, deploy, host, and manage applications.

2. Azure Cognitive Services

Make your apps more user-friendly by incorporating vision, speech, language, and knowledge abilities

3. Data Storage Application

Our Microsoft experts can help you choose the right Azure storage service

4. Universal App Development

Build a seamless application for all platforms that works on all windows platforms

5. Distributed Applications

We will help you architect distributed cloud apps with our Microsoft solutions developer.

6. DevOps

Improve agility through our DevOps model

7. Application Life Cycle Management

With us, you can conceptualize your ideas from development, testing, deployment, and support.

8. Mobility

Embrace cross-platform collaboration with us to accelerate your projects.

9. .NET Core

You can build cross-platform apps at a lower cost with our ASP.NET core MVC developers.

10. WPF Web Service Development

Our Microsoft based services- WPF- allow for the creation of a wide range of user interfaces.

11. Azure AI Services

Our Azure services let you create smart apps for your data to provide insights.

1. Architecture

- a. MVC
- b. MVP
- c. MVVM
- d. Prism
- e. Microservices

2. Databases

- a. Oracle
- b. Microsoft Insight
- c. Hadoop
- d. Microsoft SQL Server

3. BI Tools

- a. Power BI
- b. SSAS

- c. SSRS
- d. SSIS
- e. OLAP Cube

4. Languages

- a. C#.NET
- b. ASP.NET
- c. VB.NET
- d. F#

5. Platforms

- a. .NET
- b. DNX
- c. .NET CORE
- d. WPF

6. Web Services

- a. WCF
- b. Web Api
- c. ASMX

7. Cloud Hosting

- a. Azure

Why Choose Us

Within our .NET umbrella, Xekera offers a diverse range of services. We will provide you with a dedicated account manager and team that will provide assistance for the execution of your entire .NET project. Additionally, we offer support and maintenance for all of your .NET projects.
