Create a complete roadmap with costs and activities for a full adoption

Result

- Recommended future roadmap

Solidify

Result

Key deliveries

- Pilot team ready to work on the GitHub platform.
- Technical description of the setup.
- Recommended future roadmap

Solidify

Future work

Outside of engagement scope:

- Scale out – get all of your teams aboard the new GitHub platform.
- Advanced features – get started with Advanced security, Insights etc.
- Customization – customization of the platform for your organization's specific needs.
- Coaching – assistance in the adaption process.
- Training – train your staff in development tools and practices.

Solidify
