Microsoft Azure

Run your organization from the cloud
Getting started with Ascend

Ready for Liftoff

More than a third of enterprises are turning to the cloud to run key aspects of their businesses, like applications and databases.[1] Moving these workloads into the cloud—or running them in hybrid environments—can remove the burden of managing them in-house. Azure Infrastructure-as-a-Service (IaaS) can help streamline the entire process.

No matter what stage of your cloud journey, Ascend will tailor your Azure infrastructure to suit your business needs, with outcomes rooted in Microsoft's Cloud Adoption Framework. We are pleased to offer the following engagements:

Azure ASSESSMENT →

Health check and full review of your current footprint, to align to best practices, and enrich your cloud strategy.

- Environment discovery & workload assessment.

- Cost review & recommendations.

- Analysis & Implementation Plan.

Azure FOUNDATION →

Delivers your scalable, secure, enterprise-ready landing zone based on Microsoft Cloud Adoption Framework:

- Catalog workloads & applications to be hosted in Azure.

- Provision cloud resources on criticality & business value.

- Integrate security insights for governance & compliance.

Azure MIGRATION →

Fully-executed lift-and-shift; phased migration coordinated across your infrastructure, application, and vendor teams:

- Rehosting & refactoring of applications.

- Validation, testing & go-live.

- Can be paired with Assessment & Foundation Services.

Microsoft Gold Partner

Who is Ascend?

Ascend Technologies Group is proud to be part of the top 1% of MS Partners worldwide who have achieved Microsoft Gold status. As a Gold Partner, Ascend provides the highest quality Microsoft services, backed by milestones for elite performance and select customer care.

Ascend is also a Microsoft Cloud Service Provider, providing customers access to better economies on Azure and Modern Workplace (M365) licensing. ATG is a single partner for all of your enterprise Microsoft needs.
