

Infrastructure Migration Survey Form v9

Organization/Company & Primary Contact Details: Step A

Company Name:	First Name:
Phone:	Last Name:
E-mail:	Date of questionnaire: 00/00/2019
Requested Start Date: 00/00/2019	Requested Finish Date: 00/00/2019

Databerry Migration Process:

Source Migration Infrastructure Details: Step B

Current Hosting Service Provider?

Specify the number of Source Server(s) to be migrated, Type, OS, Storage, State?

Name of Server	Describe the Type of Server	OS Type & Version	Total Storage of Server in (GB'S TB'S) & Partitions	State of Server (Physical, Virtual, Hyper-Visor)
e.g. db1	Database	Windows 2016	500GB C:	VM
e.g. AppSI	Application	CentOS v7.2	700GB's each C: & D:	Physical
e.g. Web01	Web	Redhat v7.0	1TB F:	VM
e.g. DC4	Other	Windows 2016 DC	2TB each P: & Z:	Hyper-Visor

Total count of Server(s)?

Is there a SAN? (Yes or No)

Infrastructure Migration Survey Form v9

Specify the Database Engine Server(s) Type | Version | Name | Size | Quantity?

(e.g. Microsoft SQL 2014, MariaDB 5.6, MySQL 5.4, Name of DB, size of DB, MB's, GB's, TB's)

DB Server Name	DB Engine Type & Version	DB Name	DB Location	Total DB Size in (MB's GB'S TB'S)
e.g. db1	MS SQL 2012	Sales_DB	C:\somewhere\	500GB
e.g. Web02	MySQL	Support_DB	D:\somewhere\	1GB

Total Count of Database(s)?

Custom Applications, Applications, Frameworks, | Versions? Please list all Applications types/versions & Names?

(e.g. .NET 4.5 | PHP 5.4 | Java 1.5)

Are there any Third-party commercial applications or platforms | API's | Plug-ins?

(e.g. Joomla 2.x, Drupal 7.2, WordPress 4.1, QuickBooks v18.0 etc.)

Active Directory Migration (Yes or No)?

(Note: VPN will be required if migrating over WAN)

Are there any Mobile Apps?

(e.g. iOS Apple swift, Android java, Windows Mobile)

Are there any E-commerce or Payment Gateways Service/platforms involved?

(e.g. Authorize.net, PayPal, Stripe, Magento etc.)

Are there any SSL certificate(s) installed (Type & Location if possible)?

(if Yes please List)

SSL Name	SSL Type	SSL Location (Server Name/Location)
e.g. *.mysite.com	Wildcard	Web01 C:\somewhere\
e.g. www.mysite.com	single	Web02 D:\somewhere\

Total SSL Certificate(s)?

Is there any Server Control Panels installed?

(e.g. Webmin v1.89, Plesk v12.5, CPanel v58, Docker v17.x)

List the number of Website Names (& Location on Servers if possible)?

Infrastructure Migration Survey Form v9

Website Name	Website Location (Server Name/Location)
e.g. www.mysite.com	Web01 C:\somewhere\
e.g. my.app.com	Web01 D:\somewhere\
Total Websites	2

List existing Web Server platform & Versions?

(e.g. IIS 7.0, Apache 2.2, Nginx 1.1)

Are there any E-mail platforms or services installed on the Server(s) Type | Version?

(e.g. Sendmail v8.7, PHPmailer, Postfix, MS Exchange v2013, Exim)

Total Monthly estimated average of Usage Traffic and/or Transactions volume?

(e.g. Google analytics data and/or Environment estimated usage of High, Medium, Low)

Destination Migration Infrastructure Details: Step C

Moving to Hosting Service Provider?

(e.g. Azure)

Specify the number of Destination Server(s) to be migrated to, Type, OS, Storage, State?

Name of Server	Type of Server	OS of Server & version	Storage of Server (GB'S TB'S)	State of Server (Physical, VM, Hyper-Visor)
e.g. DB1	Database	Windows 2016	500GB's	VM
e.g. App2	Application	CentOS v7.2	700GB's each	Physical
e.g. Web4424	Web	Redhat v7.0	1TB	VM
e.g. Hyp02	Other	Windows 2016 DC	2TB each	Hyper-Visor

Is there a SAN? (Yes or No)

Specify the Type of Migration?

(e.g. P= Physical V=Virtual P-P, P-V, V-V, V-P)

Please include any additional technical details that you may feel is important that was not covered above:
