

AFFINE
COMMAND THE NEW

AI-based Document Digitization Solution Powered by Azure AI and Cognitive Services

Enterprise AI/ML Solutions To Drive Business Transformation At Scale:

Enabling business focused data science, AI and BI development with deep domain expertise. Affine believes in faster design to faster deployment through key differentiators- Experimentation Focus and Speed to Value.

WHAT WE OFFER

Affine's AI-based document digitization solution addresses the challenge of inconsistent report designs and enables efficient data extraction from digitized documents.

The solution will be scalable and can accommodate various document template designs, making it easier to digitize documents across different departments and organizations.

The solution will reduce the need for error-prone manual data extraction processes, increase productivity, and make digitized documents 100% text searchable.

Business Benefits:

Increased productivity via digitized documents which are 100% text searchable

Scalable to various document template design

Automated process reducing the need of error-prone manual data extraction process

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
