

Microsoft Azure Infrastructure: 1-Day Assessment

Primary Product: Azure; **Pricing:** \$500.00

What is it?

Cloudica's one-day Assessment helps clients understand their current Microsoft Azure infrastructure setup and define their goals and needs. At the end of the assessment, clients will be fully informed on how to develop their systems in an efficient and cost-effective manner.

Who is this for?

This Assessment is for business leaders and IT professionals of small- and medium-sized enterprises to fully understand the cloud solutions that they currently have and obtain a full understanding of the options available on the market today. This allows them to make educated decisions on how to grow their business.

Microsoft Azure Infrastructure: 1-Day Assessment

Primary Product: Azure; **Pricing:** \$500.00

What do we offer?

Our Assessment allows our analysts to get a deep view of clients' present Microsoft Azure infrastructure in terms of performance, operations, and security. We then prepare a short report identifying the strengths, weaknesses, opportunities and threats. This is followed by a conversation with the client on how the tools which are currently on the market can help achieve targets.

What are the benefits?

Cloudica's one-day Assessment gives you the ability to take informed decisions on the future of your cloud solutions. You will leave the assessment with a full understanding of what you currently operate, the solutions available, how to implement them, and what they can provide your business.

Steps and agenda:

- Review of the client's current solution
- Present a report on the strengths, weaknesses, opportunities and threats
- Explain the current solutions on the market
- Understand how this can help the client achieve their goals
- Q&A session
