

MANAGED CLOUD SOLUTIONS

A security-first public cloud solution with award-winning 24x7 global support.

In a world of accelerated change, financial firms need new solutions for business productivity, collaboration, and mobility. At the same time, they face rising pressure to protect not only privacy and data but also the security of applications and devices.

That's where ECI excels. We are experts in designing, delivering, and managing public cloud solutions that blend best-of-breed technologies for a secure, cutting-edge solution. We then wrap each solution in award-winning support services and continuous proactive management and monitoring.

ECI's Managed Cloud Solutions (EMCS), which combines the power of Microsoft public cloud tools with industry leading data protection and security technology, delivers a solution tailored to a firm's specific requirements. Plus, our team provides 24x7 global support and monitoring to ensure an outstanding user experience.

Microsoft Office 365 Features
