

Azure Landing Zone Enterprise Package: 4-Week Implementation

infopulse
Part of Tietoenvy Group

 Price: \$32,000

Launch and deploy workloads and applications with speed and confidence by building and implementing Azure landing zone. As an Azure Expert MSP with 6 Advanced Specializations, Infopulse will help you create a landing zone and migrate your workloads to Azure.

What makes Infopulse different is that we use the most applicable and advantageous implementation scenarios that match your business objectives. Our Azure Landing Zone package is designed in accordance with the best Microsoft practices, ensuring a seamless and consistent solution delivery.

Azure landing zone is a scalable and modular environment for hosting your workloads and applications. Our solution offers various implementation scenarios to fit your organization's business goals and technical requirements. This allows for the efficient migration of workloads in accordance with your policies and standards.

Infopulse Azure Landing Zone offering will help you implement a standard landing zone to migrate your workloads and applications to Azure based on Microsoft Cloud Adoption Framework (CAF) for Azure.
