

SharePoint Auto-Translator: 1-hour Demonstration

Whilst SharePoint Online offers a robust platform for enterprise-grade multilingual intranets, a key feature limitation is the automatic translation of content. Intranet editors are often challenged with the task of manually translating content in SharePoint Online to serve a multilingual audience, which requires significant time and effort to reach a published state.

The Accelerator by WM Reply, having years of experience delivering global intranets, has developed a solution to serve for the automatic translation of your intranet content. Benefits of our solution include:

Easy to use

Intelligent
translation

Integration

Speed

Automated

Join our 1-hour free demonstration of the SharePoint Auto-Translator. Included in this time will be:

- A full demonstration to show the ease of automatically translating content for an editor with the tool
- An overview of the technical requirements
- The expected required investment for the solution
- An opportunity for Q&A

WM Reply has the expertise to move your organisation ahead

Built on decades of knowledge and using the latest technologies such as Microsoft 365, Teams, Viva and SharePoint, we aim to create digital platforms that enable our clients to foster meaningful, online engagements with both their employees and customers.

WM Reply is made up of a team of 200+ dedicated and knowledgeable employees, operating across Europe and the United States. What's more, as part of the Reply Group, a leading Consulting, Systems Integration and Digital Services company, we have access to a huge pool of talent – over 10,000 experienced professionals.
