ABSOFT

Cloud Migration & Hosting Services

SAP Managed Cloud Hosting & Cloud Migration Services on Microsoft Azure

With greater security, flexibility, scalability and availability, a move to the cloud is a high-priority strategy for organisations in the Public Sector. Microsoft Azure is fast becoming the platform of choice for SAP customers and many are looking to assess the business value of running SAP on Azure - or have already done so.

In partnership with Microsoft, Absoft will guide your organisation to ensure your cloud hosting needs are right-sized now, and are ready for growth and capacity for years into the future.
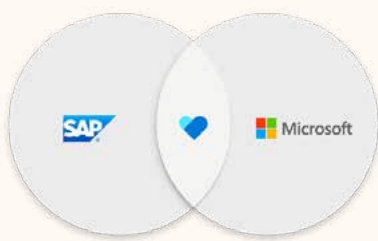

Some of the driving factors for our customers when choosing to move their SAP landscape to Microsoft Azure are:

Security	Cost Reductions	Integration
Microsoft Azure is one of the most secure and reliable platforms that protects your and your customers' data.	By only paying for the services you need you can reduce your IT infrastructure costs.	Easy integration with other business applications, including Office365.

The benefits of migration for your SAP estate into the Azure Cloud are limitless. **As Advanced SAP on Azure Specialists, Absoft's tried and tested process provides an assessment and optimisation of your landscape, and a seamless, hassle-free migration that is aligned with our value-adding SAP Hosting Managed Service.**

Your One-Stop Shop for SAP and Microsoft Solutions

- SAP Partner & Microsoft Gold Partner
- Hundreds of SAP system migrations; 20 SAP migrations to the cloud
- 30 years of SAP experience, 10 years of SAP in the cloud
