

# Datapath Intelligent Form Capture

Free your team from tedious tasks and drive value to your organization by automating your business processes with Microsoft's robotic process automation (RPA). Unlock your team's potential by allowing them to focus on higher-value work. Reduce time spent on and eliminate errors resulting from manual data entry with intelligent form capture automation.

## Intelligent Form Capture

With intelligent form capture achieve the highest levels of automation with minimum effort to validate capture forms by extracting critical information from documents without extensive guidance from users. Decrease costs associated with manual data entry. Intelligent workflows and process automation driven by business rules helps eliminate human errors

such as transposed numbers or misplaced decimal points resulting from manual data entry. Increase productivity by reducing time spent on manual data entry. Workflows identify document scans requiring validation and verification so your teams can focus only on the tasks that require human intelligence or business experience.

Enable data-driven decisions by extracting the data from your documents. By turning your documents into usable data, you can focus more time acting on information rather than simply compiling it.

This offering is a Microsoft Cloud service utilizing advanced Azure Cognitive Services automation. Achieve a quicker return on your investment with rapid deployment and no hardware or software purchase requirement.

Key Features	Key Benefits
<ul style="list-style-type: none"><li>• AI form capture for critical fields</li><li>• Workflow to identify document scans requiring verification and validation</li><li>• Data capture and correction visualizations</li><li>• Advanced reporting and analytics that focus on data trends</li><li>• Audit trail with comments</li></ul>	<ul style="list-style-type: none"><li>• Supportable – ClientCare support service for on-going maintenance and assistance</li><li>• Streamlined – Spend less time on routine activities and focus on value-added work</li><li>• Productive – Focus on more value-added work with the same team size by reducing time spent on tedious tasks</li><li>• Quick ROI – With rapid deployment and no hardware or software purchase required</li></ul>

## Why Mazars?

Mazars' Microsoft Practice, a Microsoft Gold Partner, offers end-to-end solutions covering all three Microsoft Cloud Offerings including Azure, Workplace Mobility and Business Applications. Our focus areas include Dynamics/Power Platform solutions as well as analytics, IT infrastructure and

automation using RPA (Robotic Process Automation) to provide better business outcomes for our clients.

The Mazars Microsoft Practice has the industry breadth and depth, along with Microsoft Solution experts, needed to quickly implement Microsoft Business Solutions for you and your business.
