ENTERPRISE CLOUD STRATEGY & ARCHITECTURE

DIGITALL

ENTERPRISE CLOUD STRATEGY & ARCHITECTURE

CHALLENGE

External services support you if you:

... seek special know-how

... need to focus on operations rather than design & migration

... look for an overview of available cloud technologies

... want to identify valid go-to-cloud scenarios

IMPACT

External services prevent a devil's circle of:

... bad architecture

... bad execution leading to

... data loss which eventually leads to

... business disruptions causing loss of money & reputation

SOLUTION

Our Enterprise Cloud Strategy workshop will:

... help you to understand the Cloud and its features

... walk you through:
- Discovery
- Organizational planning
- Technical & Security readiness

... provide you with high-level cloud architecture tailored to your business strategy

DIGITALL

VALUE PROPOSITION: THE WHAT AND THE HOW

Enterprise Cloud Strategy is a strategic advisory workshop tailored for your organization's needs to support you on your cloud journey through organized, well-planned steps & leverage what the cloud can offer.

The workshop is led by our team's professionals who have extensive knowledge on a broad set of cloud technologies, thus providing our customers with the best options for their specific needs and scenarios.

Together, we will assess your current position, what your goals are and how to get there with the Public, Private or Hybrid Cloud.

With the cloud architecture document, we will provide a high-level overview of the best solution for your needs to leverage your cloud technologies and capabilities.

The Enterprise Cloud Strategy by DIGITALL provides customers with vendor-independent architecture and approach on their journey towards the Cloud.

DIGITALL
