

Cloud Assessment Workshop

Evolve your Business with the Power of Microsoft Azure Cloud

01.03.2021

Gold Application Integration
Gold Application Development
Silver Cloud Platform
Gold Windows and Devices

IT-Infrastructure is an expensive overhead.

Maintaining your own IT-infrastructure is a time-intensive activity that requires specialized talent and regular investments to keep the equipment up to date. It is often a challenge for the companies to keep their systems and services up and running to fulfill the quality of services expected by their workers and customers.

CHALLENGES

Enterprises looking to move into the cloud lack in-house talent, capacity and experience to do so.

They have complex systems, key to their business, that run on physical and sometimes outdated infrastructures.

Customers in their markets demand newer features and better QoS.

IDEAL SOLUTION

Have a hands-on workshop with experts in cloud migration and cloud-based software solutions.

Identify together all business-related risks and opportunities and work out their mitigation and implementation measures.

Design tailor-made migration strategies for all your systems.

DESIRED OUTCOMES

Have a clear execution plan on how to master cloud migration specific to your business.

Get a first evaluation on how much effort and what costs are associated with migrating to the cloud.

XITASO

Microsoft Cloud Assessment

Evolve your business by creating a system tailored to your specific needs. With our assessment you'll find out how to leverage the power of Microsoft Azure Cloud to achieve your specific goals.

1

DISCOVER POTENTIAL

Our 1-day workshop helps identify needs and goals of your company and sets the foundation to successfully optimize your business processes by migrating into the cloud

2

DEVELOP A STRATEGY

Based on your current project infrastructure and desired requirements, we will develop a digital strategy for the implementation of your ideas

3

TAKE ACTION

In combination with MS Azure, we'll provide you with a tailor-made plan and a quote to turn your strategy into reality

XITASO Cloud Assessment & Microsoft Azure

By moving your systems into Azure, you will reduce maintenance overhead while still delivering the best quality of services. You will be able to handle Security and compliance in an automated and centralized way. This way you can focus on creating value for your customer instead.

HIGH AVAILABILITY OUT OF THE BOX

Azure's cloud infrastructure guarantees that your applications are up running all the time in a seamless way

BE READY FOR THE FUTURE AND COMPATIBLE WITH THE PAST

Easily port your current infrastructure and services and benefit from new solutions every day

KEEP ALL YOUR SYSTEMS SECURE AND UNDER CONTROL

Azure's built-in security and monitoring systems make it the main choice for many enterprises, governments & startups

Let's together take your Business to the next level!
