

LIGHTHOUSE Microsoft Purview Proof of Concept

Partner with Lighthouse to test Purview technology and understand if it meets requirements for your organization's privacy, records management, information governance, security, and eDiscovery workflows.

Overview

PRIVACY

Identify and mitigate organization-wide risks while also meeting employee privacy standards.

INFORMATION GOVERNANCE

Manage dynamic and complex workflows, policies, and automations within your organization.

LEGAL

Ensure legally defensible processes are used to manage data, records, and compliance information.

RECORDS MANAGEMENT

Leverage Microsoft 365's record management features while handling compliance, retention, and disposition obligations

Optimizing Microsoft Purview with confidence

Most Microsoft 365 deployments focus primarily on business requirements, not the legal risks. However, Lighthouse delivers technology and workflow Purview Proof of Concepts focused on privacy, information governance, legal, and records management within the Microsoft 365 platform.

Lighthouse helps organizations deploy Microsoft Purview effectively to reduce risk. With this POC, Lighthouse will:

- Walk you and your stakeholders through the testing and analysis processes we followed and the results that were observed.
- We will recommend ways to implement advanced information governance and compliance in your eDiscovery program. These recommendations are designed to maximize your cost savings and efficiency and give you the information needed to develop your business use cases.
- Deliver an actionable roadmap inclusive of understanding Microsoft Purview features, workflows, and intricacies as it pertains to your data life cycle frameworks.
