This hands-on workshop helps intelligently identify and take effective action on insider risk.

Overview

DOCUMENT

Document objectives and strategy around insider risk and investigate insider risks and framework gaps.

DEMONSTRATE

Demonstrate how Microsoft 365 and Microsoft Purview tools can safely accelerate insider risk mitigation.

RECOMMENDATIONS

Provide actionable next steps based on resulting needs and objectives.

Uncover and mitigate risk in your organization

For most organizations, external cybersecurity risks have been top of mind for many years. But these organizations are now considering the risks posed by trusted insiders as an equal or even bigger threat. Organizations are beginning to recognize the importance of establishing controls that enable them to quickly identify and manage insider risks.

Detect, investigate, and act on malicious and inadvertent activities in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets.

This workshop brings together legal and compliance with IT for an actionable go-forward plan. This dynamic workshop provides:

- The User Risk Check that includes findings and insights from the automated discovery process.
- A list of recommendations and actionable next steps to mitigate the identified risks.
- Clear look into Microsoft's approach to mitigating and controlling insider and regulatory risks.
- Data Protection Baseline assessment report that provides suggestions and top improvement actions.
- A set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps.
