

During our Meeting and Meeting Rooms Advisory session we will evaluate the customer's current meetings and meeting rooms capabilities. Walk through a combination of presentations and immersive experiences that will educate the customer about Microsoft Teams Meetings capabilities and uncover business use cases and priorities. We will provide direction about how to transform meetings and meetings rooms across the entire organization. Create a customized report with actionable recommendations to ensure the organization can stay connected, collaborate seamlessly, and simplify work, in a secure and compliant way.
