Microsoft VIVA Complex
Revolution in the employee experience.

Microsoft VIVA Complex – workshop dedicated for all organizations with would like to get practical knowledge on how to use Microsoft's revolutionary approach in managing and build the most effective and innovative environment for employees by **Employee Experience Platform** (EXP) deployment. EXP puts people at the center, combining work, development, motivation and support systems into a single Employee Experience.

The purpose of this workshop is to show the integration of the **Microsoft VIVA** various services with your current **Microsoft 365** environment and in particular **Microsoft Teams** as a central Hub for communication and information sharing. The workshop will start with an interview about the work environment currently used in the organization and then through an analysis of the applications, practical scenarios for the use of individual tools from the **Microsoft VIVA** platform will be selected and tailored based on its key principles, among others:

- Develop a solution for complete and effective communication at every level of the organization with **Microsoft Viva Connections**.
- Putting knowledge and experience to work, thanks to **Microsoft Viva Topics**.
- Create an intuitive and effective training center with **Microsoft Viva Learning**.
- Foster a culture in which people thrive using **Microsoft Viva Insights**.
- Align employees with the goals they set with **Microsoft Viva Goals**.
- Develop effective connections of all employees in the organization with **Microsoft Viva Engage**.
- Supporting leaders and managers to increase employee engagement with **Microsoft Viva Pulse**.
- Provide a platform for all employees to share ideas opinions and skills using **Microsoft Viva Amplify**.
- Provide employees with career development opportunities with **Microsoft Viva Coach**.

As a summary of the workshop, our expert enginer from Integrated Solutions will present recommendations and, together with the participants, create a follow-up plan with risks and countermeasures to ensure successful adoption of new services from Microsoft Viva platform.

Expected duration of the workshop: 4 hours.

Trainer: Experienced Expert Engineer from Integrated Solutions

Dedicated to: This workshop will be usefull for all interested in the innovations in the Employee work environment using the Microsoft VIVA platform.
