2 DAY WORKSHOP

AI Strategy

Set a clear strategy around data and AI with Cegeka's Data Solutions team. Collaborate with us during our 2-day workshop to define your data & AI strategy with a step-by-step roadmap for a data & AI strategy that aligns with your business goals.
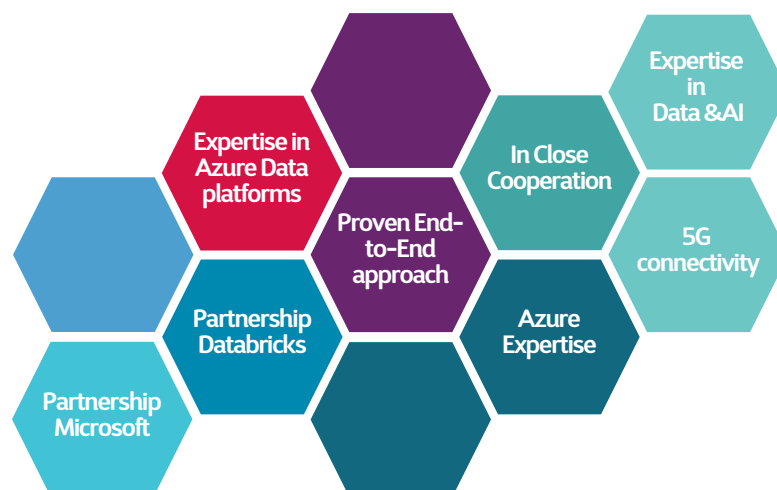

What's in it for your business?

- We deliver you a comprehensive understanding of the potential applications and benefits of artificial intelligence (AI) within your organization.
- Together we will establish a roadmap and actionable steps to kickstart your AI journey.
- Based on your goals and business context, we will assist in formulating a tailored AI strategy. This strategy will outline the vision, objectives, and key initiatives required to integrate AI into the business processes successfully. We will provide guidance on technology selection, data requirements, skills and infrastructure needs.
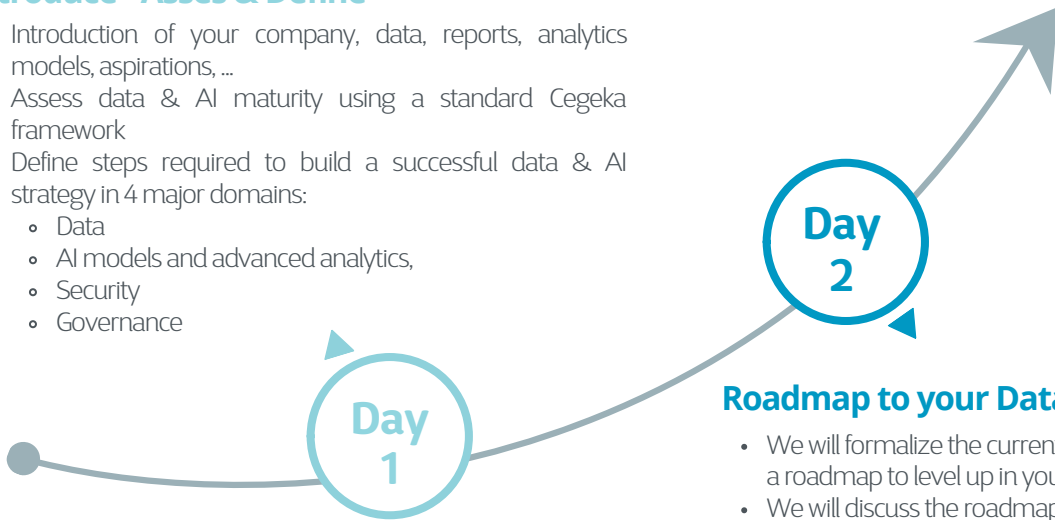

Why Cegeka?

Expertise in Azure Data platforms

Proven End-to-End approach

In Close Cooperation

Expertise in Data & AI

5G connectivity

Azure Expertise

Partnership Databricks

Partnership Microsoft

Our Approach

Introduce - Asses & Define

- Introduction of your company, data, reports, analytics models, aspirations, ...
- Assess data & AI maturity using a standard Cegeka framework
- Define steps required to build a successful data & AI strategy in 4 major domains:
  - Data
  - AI models and advanced analytics,
  - Security
  - Governance

Day 2

Day 1

Roadmap to your Data & AI Journey

- We will formalize the current situation and design a roadmap to level up in your data & AI journey
- We will discuss the roadmap in detail, collect feedback, and draft a final report

Deliverables

Final report with a step-by-step roadmap for a data & AI strategy that is aligned with your current company-wide strategic goals.

The report will include potential benefits of AI for your business, how to organize the next steps towards becoming a data driven company.
