Silverlake Cloud-enabled Solution on Azure

The new SaaS Digital Banking on cloud landscape relies on ability for agility, scalability, speed, and with our SaaS technology and cloud computing options, we deliver a platform for the unique needs of our client. Fundamentally cloud computing hosting provides the power of growth and speed to market whilst enjoying economies of scale.

1

Fully featured and modular SaaS Digital Banking Solution

Tried and tested proven solutions that have evolved over 30 years with innovation and richness in functionality. Configurable and deployed rapidly, with a robust host and powered fully by a java front end, all driven by API functionality.

2

Subscription and pay as use based pricing

Think Big, Start Smart, Scale Fast. The pricing approach is through a subscription model where there no capital expenditure for SaaS and managed services requirement. And with low set-up costs with rapid deployment.

3

Azure Cloud for agility, scalability, speed, and cloud options

Silverlake SaaS Digital Banking on cloud relies on ability for agility, scalability, speed to innovate, and with SaaS technology and Azure cloud computing options, we generate a platform for the unique needs for our client.
