

Let your customers enjoy an in-store experience from the comfort of anywhere, and buy remotely.

Hold live one-to-one video calls with your customers, to provide inspiration, suggestions, and advice. And you can conveniently create baskets, to instantly send to your customers for purchase.

With personal video shopping, you open up a great new exciting sales channel that's also ideal for customers who can't easily visit your stores, such as the mobility challenged.

WHY VIDEO SHOPPING?

- Create a new customer experience and add a human touch to out-of-store shopping
- Always be there when your customers need you and help them confidently make the right choice
- Increase conversions and maximize upsell and cross-sell opportunities
- Learn what makes your customers tick and follow up on rich customer insights
- Extend the geographic coverage of your physical stores
- Easy for customers – no downloading of any app or video software
