

TEAMS FOR HEALTHCARE

Empowering Caregivers & Enhancing the Patient Experience

Using industry best practices and a proven change management methodology, Core BTS delivers innovative Microsoft Teams solutions that help healthcare organizations transform the care continuum.

We specialize in delivering secure communication and collaboration solutions that empower caregivers to connect with their peers and patients.

VIRTUAL ROUNDING

Our HIPAA compliant virtual rounding solutions expand access to care while reducing infection spread and the need for personal protective equipment.

WHY CORE BTS?

Our team has worked for – and with – some of the biggest brands in healthcare. We truly understand the challenges facing today's care providers.

We combine our real-world experience with deep technical skills and Microsoft Programs to deliver secure healthcare solutions that drive value.

VIRTUAL VISITS

Using the Teams Bookings app, we help care teams manage appointments with patients or other healthcare providers to discuss medical care.
