

All-in-one AI Platform for Business

AI has never been so easy

Challenges in adopting AI

Budget
constraints

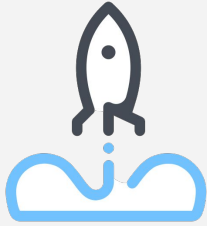

Months to
get started

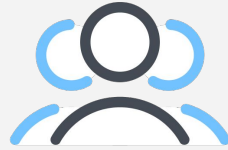

ML expertise
required

91% of businesses face them

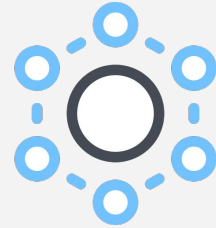

One connected platform to **adopt AI**

Access, build and launch AI-powered solutions in **hours**

Enable team and customers use them **without limitations**

Integrate with other tools **seamlessly**

Design solutions your business really needs

- Get data from 100+ internal and external sources
- Access 30+ ready-to-go AI instantly
- Combine them to automate the most advanced tasks ever

The screenshot displays a workflow builder interface for a task titled "Generate Google Ads". The interface is divided into several sections:

- Navigation Bar:** Includes "Workflows", "History", "Analytics", "Users", "Configure", and "Help". A search bar on the right allows searching for "Workflows, Templates and Users".
- Workflow Builder:** Shows a sequence of steps connected by arrows:
 - User Form:** Contains a "Manual Input" step with fields for "Data Input (2)", "URL Website", and "File Label Name".
 - URL Data Extraction:** An "Action" step that receives data from the manual input and outputs "Data Input (1)" (URL Website) and "Data Output (6)" (URL Title and URL Description).
 - Generate Google Ads:** An "Action" step that receives "Data Input (1)" (URL Description) and produces "Data Output (1)" (Generated Google Ads).
- Right Panel:** Contains "Input Types" (Form / Manual, Dataset, Database, Direct Integration) and "Popular Actions" (Generate Ads, Generate LinkedIn Post, Get SEO Data, Get Leads Data, Search Google, Send to Salesforce, Recognize Image, Extract Website Data).
- Buttons:** A "Run Flow" button is visible in the top right of the workflow area.

Start using AI solutions from day one

- Test how your solutions work live
- Modify solutions on the go
- Customize results in a way you need

The screenshot shows a web-based workflow editor interface. At the top, there's a navigation bar with 'Workflows', 'History', 'Analytics', 'Users', and 'Help'. A dark header contains 'Editor Mode' and a user profile icon. The main workspace is titled 'Generate Google Ads' and has tabs for 'General Info', 'Workflow', 'Input', and 'Output'. A search bar is present. Below, there are three 'Cards' representing different AI-generated content pieces: 'Boost Your Conversion Rate 10X', 'Use search engine optimization | Drive sales', and 'Improve your customer experience'. Each card contains placeholder text and a code icon. A pagination bar shows '1' selected out of 34 items. At the bottom, a 'Table' view is partially visible with columns for 'Website', 'URL Title', 'URL Description', and 'Generated Ads'. On the right, a sidebar offers 'Visualization' options (Table, Cards, Rows, Chart) and 'Data Output' options (Generated Google Ads, Website, Uploaded File, URL Title, URL Description, URL Favicon, URL Image). A 'Custom Elements' section at the bottom right includes 'Link' and 'Image' options.

Share and scale without limitations

- Display under your domain and brand assets
- Integrate with your products and tools
- Invite teammates and customers

The screenshot displays the Drafter AI Workflows interface. The main window is titled "Generate Google Ads" and has tabs for "General Info", "Workflow", "Input", and "Output". Below the tabs is a search bar and a "Cards" section containing two cards:

- Boost Your Conversion Rate 10X**: Includes a red square icon with a white 'M' and a close button. The text reads: "Lorem ipsum dolor sit amet consectetur adipiscing elit. Architecto accusantium praesentium eius, ut atque fuga culpa, similique sequi cum eos quis dolorum."
- Use search engine optimization | Drive sales**: Includes a red square icon with a white 'M' and a close button. The text reads: "Lorem ipsum dolor sit amet consectetur adipiscing elit. Velit facilis asperiores porro queraat doloribus, eveniet dolore. Adipisci tempora aut inventore optio animi, tempore temporibus quo laudantium."

Below the cards is a pagination bar showing "1 2 3 4 5 ... 34". At the bottom, there is a "Table" section with columns for "Website", "URL Title", "URL Description", and "Generated".

On the right side, a "Get API Call" window is open, displaying a code editor with the following code:

```
1  sendWorkflowChange prop string value any void Copy
2
3  let field = this.getField field ? => { name: 'prop'
4
5  }
6  let field = this.getField field ? => { name: 'prop'
7  value: 'value' } => this.workflowState.value } field
8  this.workflowState.prop = value field
9
10 console.log("Workflow state: ", this.workflowState)
11
12
13
14  sendWorkflowChange prop string value any field field void
15  value: 'value' } => {
16    'name': 'value'
17    'url': 'https://drafter.ai'
18    'url': 'https://drafter.ai'
19  }
20
21  let field = this.getField field ? => { name: 'prop'
22  value: 'value' } => this.workflowState.value } field
23  this.workflowState.value = value field
24
25  let value = '0'
26  this.workflowState.value = value
27
28
```

Below the code editor is a section titled "Using Node.js? Get our SDK!" with a GitHub logo and the text: "Explore our guides and examples to integrate Drafter AI Workflows." A "Proceed to Github" button is located at the bottom of this section.
