Cloudified Mediaroom

## Mediaroom Hybrid Cloud

Mediaroom is the premier IPTV platform for millions of subscribers and consistently rates well for customer satisfaction. Know for Operational excellence and large-scale multicast deployment, Mediaroom continues to be the mainstay of many IPTV deployments.

Modernizes Mediaroom infrastructure by moving key services to the cloud, reducing dependency on legacy server software and hardware reducing support costs and risk.

Microsoft Azure

What we offer

Upgrade Mediaroom services in place, reducing downtime risk and maintaining quality of experience for end users. Avoids replacement of existing Mediaroom set-top-boxes.

Migrate Mediaroom Branch, subscriber management, device management, DRM key management services groups to Azure with ability to turn off all Mediaroom management back-end servers, drastically reducing OPEX, significantly reduce footprint in data centers and video head ends.

Utilize Azure strategic capabilities to deliver high capacity network interconnectivity using ExpressRoute to securely connect to any Operator backbone over a private network.

Managed services and term-based licensing for the cloud control available. Next generation technology stack w/out dependencies on aging on-premise hardware that can run for many more years

Microsoft Azure

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
