CLOUD DISCOVERY WORKSHOP

FROM CLOUD DISCOVERY TO CLOUD STRATEGY AND ROADMAP

Cloud Discovery combines different sessions addressing the business, technical and system needs, using a defined framework guiding discussions within the following three segments, and the impact cloud adoption will have on your business:

People | Technology | Processes

Completing a Cloud Discovery Workshop with BUI, will give your IT Strategists the peace of mind they need to present their cloud adoption strategy to the board.

All aspects of your business and potential cloud solutions are discussed, reviewed and a final cloud strategy and roadmap defined.

We eliminate your need for costly adoption mishaps, by providing you with a defined and customized cloud adoption roadmap, based on your company's cloud readiness.

This offering includes the following deliverables:

- 1 Business & Technical Requirement Workshop
- 2 Environmental Assessment
 - Architecture Overview
 - Active Directory
 - Bandwidth
 - Mail Server Readiness
- 3 Strategic and Business Planning Session
- 4 Present and Discuss findings
- 5 Present the Cloud Adoption Strategy and Roadmap

Costs

R65,000

Per Cloud Discovery

Excludes any Products or Enablement

Solutions available on the Azure Marketplace
