

Integrating Dynamics 365 without the disruptions to your enterprise

Scaling Transformation

We bring the experts that can deliver Dynamics 365 and the flexible architecture to solve the integration between your new back-office and your existing IT investments.

Let's Transform Together!

Together with our experts, you can translate your company's direction and vision into an actionable roadmap. Leveraging design thinking concepts, and a comprehensive evaluation of your current state, we will jointly define how to enable the digital transformation of your organization.

This workshop ends with understanding your vision and setting in place the measures of what a successful transformation looks like.

What We Offer

A two-day workshop showcasing how we can integrate D365 and F&O back-office into your organization's business systems.

- ✓ **DAY 1:** Educational instruction on the architecture of Dynamics 365 for Finance and Operations, the proper use of Azure cloud, and the integration technologies available.
- ✓ **DAY 2:** Interactive customer focused sessions to better understand your key business problems and discuss a high-level integration roadmap.
- ✓ **OUTPUT:** A write up of your technical training session including the overall system integration strategy and design patterns that best fit your company's unique needs.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve. Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud. Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups. With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks. www.microsoftazure.com
