

# How does the SAP CDC connector work?

# Benefits

## Data replication in real-time

- Captures changes to data increasing extraction speed
- Azure Data Store is always kept up to date

## Ease of Use

- Easy to set up and use
- Removes necessity of complicated workarounds

## Scalability

- Designed to handle large volumes of data and frequent usage
- Scales with database and requirements

## Flexibility

- Works with most modern SAP systems (those that support ODP)
- Works with a variety of Azure data stores
