## NCC Group's Consultant Led Infrastructure Security Testing

**Cloud Platform Assessments** are designed to provide a comprehensive view of your cloud environment's security posture, with all the advantages of a consultant driven exercise it is ideal for newly deployed environments and those that have not been thoroughly assessed recently.

**Focused reviews,** Cloud Security Assessment engagements are often expanded to include comprehensive assessments of sensitive assets such as the Active Directory, databases or Kubernetes clusters as well as in-depth application testing and Secure Development Lifecycle consulting.

**Office 365 Assessments** from NCC Group provide the assurance needed to ensure systems are free from common exploitable vulnerabilities and ensure an O365 instance has been configured to meet the client's unique requirements...
