

Evolve your web applications with Microsoft Azure

DynamicsEdge
CLOUD SOLUTIONS

Business is powered by applications

Customer experience is more important than ever

*"More than any other factor, customer experiences determine whether companies thrive and profit, or struggle and fade"**

*Source: Forrester Research, "Outside In"

Your end users have high expectations

Speed

79% won't return to a slow website

Personalization

38% won't come back if they have to repeat themselves

-  High availability with auto patching
-  Reduced operations costs
-  Backup and recovery

Enterprise-grade capabilities

Unified security and identity with support for hybrid workloads

-  Global reach and local presence
-  Hybrid support
-  Azure Active Directory integration
-  Security and compliance certifications

Your Web apps migration journey to Azure

Assess

Determine if your website is a good candidate for Azure App Service by scanning its public URL – for free and just within a few minutes

Migrate

Choose your path to the cloud by redeploying your code, containerizing your application, or lifting-and-shifting with migration tools

Optimize

Take advantage of proactive and intelligent analytics, DevOps practices, or pre-built AI components, to offer an enhanced experience

Help with Azure App Service hosting plans

Pay monthly, no more up-front capital expenses

Pricing is based on the size and number of instances
Choose the plan that fits your needs within these models

	SHARED Free – Shared	DEDICATED Basic – Standard – Premium	ISOLATED App Service Environment
	Base tiers designed for dev/test environments, running on shared resources	Dedicated instances for production workloads, with increased capabilities	Dedicated instances and virtual networks for high-performance, security and isolation
