# Microsoft 365 Strategy & Roadmap

## Prepare for the Journey

The most successful Microsoft 365 (M365) projects begin with a solid plan and an itemized strategy to execute it. Without this preparation, projects can take twice as long, cost twice as much, and provide a poor end-user experience.

Whether your organization is new to M365 or you're looking to migrate new workloads, our M365 Strategy & Roadmap engagement will ensure you are prepared for your journey to M365.

### What's Included

Immediate action areas may include any of the following:

- Workforce Analysis: Which devices and M365 licenses are necessary for each user persona
- Digital Workplace Analysis: What is and isn't working in your environment
- Environment Assessment: Technical current state, project management, and change management capabilities
- Workload Education: Overview of M365 workload functionality in your current environment
- Solution Envisioning: Collaborate to collect requirements, ideate solutions, and determine which solution option is the best fit
- Solution Strategy: Itemized steps and proper step sequencing for your custom tailored M365 roadmap

- Digital Workplace Report: Documented results of the analyses, assessments, solution envisioning, and the solution deployment strategy
- Technical Roadmap Presentation: Presentable summary of the Digital Workplace Report for technical audiences
- Executive Roadmap Presentation: Presentable summary of the Digital Workplace Report for executive

### Key Benefits

- Significantly reduces the time and cost to migrate or enable M365 workloads
- Accelerates workload adoption and improves end-user experience
- Creates custom-tailored solutions to digitally transform your business
- Provides a clear strategic plan for your journey to M365
- Validates your current M365 progress utilizing experience from hundreds of successful client engagements
